NUMBER 2

CO-ORDINATION OF INDUSTRY, SCIENCE AND AGRICULTURE IS SOUGHT BY DR. ALLEN HARRIS

Member For South Okanagan Tells Of Results Outlined At Second Dearborn Conference In United States

Dr. J. Allen Harris returned to his South Okanagan riding last week, more determined than ever that the only solution to agricultural problems in his country as well as in the United States, is to combine agriculture, science and industry together in a co-ordinated effort.

Dr. Harris would have science investigate the best crops to be grown according to the nature of the soil; he would have agriculture proceed to plant the crop and industry provide plants to consume the product.

Second Dearborn Conference
This is in part the nature of the work of the Farm Chemurgic Council and the Chemical Foundation Inc., which met for the second time at Dearborn, Mich., from May 12th to 14th of this year. Dr. Harris was a guest of this conference, which was originally called by Henry Ford, and took part in the programme.

Prominent professors, business men, political leaders, leaders of industry, chemists, financiers and others met for the purpose of advancing the industrial use of farm products through applied science.

The governing board of this Farm Chemurgic Council includes such leading names as Dr. Roger Adams, of the University of Illinois, and former president of the American Chemical Society; Mr. Howard E. Coffin, chairman of the Board of Southeastern Cottons, Inc.; Mr. Clifford V. Gregory, Editor, The Prairie Farmer, Col. Frank Knox, Publisher Chicago Daily News; Dr. Chas. M. A. Stine, Vice-President E. I. DuPont Nemours & Co., and many others.

FRUIT MOVEMENT FIGURES ISSUED

Tree Fruit Board Gives Crop Shipments As Talled Up To August 11th

Movement of Okanagan and Kootenay crops up to August 11th was announced by the Tree Fruit Board at noon today. According to its check-up, 93,494 crates of cherries were shipped, along with 762,729 pounds to the canneries and processing plants.

The apricot total, which is now complete, is 3,372 crates, made up of Moorpark, 1,884; Kaleden, 1,239; Blenheim, 54; Tilton, 155; Royal 19, and other varieties, 21.

Rochester peaches are the only kind that have shown any volume to date, 3,681 packages having been shipped. Yellow Star John number 18, Crawford 25, Vedette 285, and other varieties 5,068, making a total of 9,077 packages.

Peach plum shipments total 11,700 packages and other early varieties of plums make 1,435 crates, totalling 13,135.

Sixty-six boxes of Clapp's Favourite pears, 109 boxes of Bartlett's, and 92 boxes of other kinds, have been shipped, making a total of 277.

In Nelson and district the total cherry shipments amounted to 20,989 packages, while in the Creston district only 6,699 crates were shipped.

The Pity of It! No Fireworks For Regatta!!

Thursday was a sad day for the Shell Oil Co. It should have been an extremely bright one with sky rockets, shooting stars, bursting globules of fire and other illuminations, but the fates ruled otherwise.

Thousands of Regatta-minded Kelowna and outside persons gathered at the lakefront on Thursday evening to see a big display of fireworks promised by the Shell Oil Co. of B. C. as a separate attraction to the thirtieth annual Regatta.

But on Thursday morning, while the fireworks were being transferred from a barge to the dock, they slipped into the water and that was the end of the display, all \$700 worth.

Every effort was made to remedy the situation. Charlie Ansie, head of the Shell Oil Co. in B.C., was told of the mishap and he immediately went into action. He had a plane chartered in Seattle ready to fly a fresh supply of fireworks into Kelowna when it was discovered that four days' time was necessary to clear the Customs officials, and the best he could possibly do was two days.

So, along with a lot of red tape, away went the fireworks.

CONCESSION MADE TO FARMERS WHO HAUL FOR OTHERS

Permit Can Now Be Secured Without Payment Of Additional Licence Fee

Following strong representations to the Provincial Government as to the necessity of rendering the regulations as to road haulage less onerous in the case of farmers who transport produce for their neighbours on a basis of exchange of work, an Order-in-Council was issued on August 4th, according to which a farmer who is in possession of a Highway Carrier's Licence is now permitted to haul for any other farmer up to a distance of fifteen miles without requiring a further licence than a private Freight Vehicle, Class III, which is issued to farmers, without payment of a fee, to haul freight for farm purposes.

All that is necessary for a farmer who has such a licence is to make application to the nearest government office or constable of the Provincial Police for a permit to do such special hauling.

ROYAL GARDEN PARTY ATTRACTS CURIOUS

A large crowd gathered outside Buckingham Palace to witness the arrival of debutantes at King Edward's first garden party. The picture shows some of the keenly interested spectators peering round corners at the guests as they arrive at the palace gates.

PEACH DEAL WILL BE THROWN INTO CHAOS WITHOUT PROTECTION

Fears that the 1936 peach deal will be thrown into chaos within the next two weeks have been expressed by Okanagan shippers, who are concerned with the effects of American dumps unless a dump duty is imposed by Ottawa.

At the present time Rochester peaches have been receiving a fair demand, as the American Elbertas have not reached the Canadian markets. But the Rochesters have only a 10 cents per crate protection and what will happen if this is not increased, shippers and growers alike shudder to think.

Had Protection Last Year
And this anticipated trouble is no myth, as it can be proven with actual figures. Last season Canadian peaches had a protection of 30 cents per crate without a dump duty, but American peaches were quoted at 65 cents across the line.

This season, with a much larger Ok-

SUN LIFE MEN TO HOLD CONVENTION AT ORCHARD CITY

A. L. Wright, Provincial Manager, Gives Report on Increased Assets in First Six Months Of Year

This Saturday and Sunday, August 15th and 16th, the second conference of its kind ever held in Kelowna will be convened at the Royal Anne Hotel by the Sun Life Assurance Co. officials of the Okanagan, Cariboo and Kootenays.

Mr. Victor B. Harris, of Montreal, Western Supervisor of Agencies, and Mr. A. L. Wright, Vancouver, Provincial Manager, will be in attendance. While Mr. Howard Fairbairn, District Manager, will be chairman.

The purpose of this convention, as explained to The Courier by Mr. Wright, is to equip the underwriters to give the best possible assurance and estates service.

Increased Assets
"Information has just been received from Mr. Arthur B. Wood, President of the Sun Life, that, as a result of

the first six months' operations in 1936, the company's assets increased \$75,000,000, bringing the total assets to \$730,000,000," stated Mr. Wright.

"This is a new all-time high," con-

(Continued on page 5)

Two More in The Ranks of Ogopogo Club

Two more members have been initiated into the Ogopogo Club this summer, and this time from Penticton.

On Monday afternoon, while driving along the road between Naramata and Penticton, Bill Gartrell and Don McKinnon, of Penticton, observed what they believe to have been Ogopogo playfully pranking in the waters.

They claim that the object was 35 feet long, and was seen half a mile off shore. They watched this gliding black body for a about five minutes, when it disappeared, only to come up again about a mile off shore. The monster, whatever it was, was too far away to distinguish the type of head.

One curious coincidence is that three years ago Mr. Gartrell's mother and sister, of Summerland, saw the Ogopogo and their description tallies with that given by Bill.

Kelowna District Canners To Go Full Steam Ahead On Tomatoes Next Week

Canneries in the Kelowna district have started operations in tomatoes for the first time this week, but as yet there is no real rush. It is anticipated that by the middle of next week the tomato canning industry will be going full force.

The semi-ripe tomato deal has kept back a good deal of the supplies, as the growers wish to pick off any good prices available on that market before turning over their produce to the canneries, it is stated.

The hot dry weather has also had a retarding effect on some acreages, and the tomatoes are inclined to be on a small scale, according to some reports.

Rowell's cannery canned two carloads of tomatoes from Oliver at the first of the week, while the Canadian Canners (Western) Ltd. had two days operation and plan to start again on Saturday. The Rutland Cannery operated about the same length of time.

Schemes Under New B.C. Market Act Planned for Vegetables, Tree Fruits

OXFORD GROUP PLEA MISUSED BY CROOK DUO

Visitors From Coast Cash Worthless Cheque For \$35 Before Landing In Police Toils

Police Court was a busy place from Thursday right over the week-end with all manner of cases coming before Magistrate J. F. Burne. Thefts, false pretences, intoxication, speeding and motor accident charges were all heaped one on top of the other.

But one surprising feature was that no thefts occurred over the Regatta celebration. Three extra Provincial Police Constables were on patrol over the two days, these being Constables DeWitt of Chase, Smythe of Enderby and Kendall of Kamloops.

One of the feature cases of the week came before the court on Thursday morning, August 6th. Two young chaps, one a red head and the other quite dark complexioned, and who claimed at one time to be brothers, blew into town on August 3rd.

Driving Stolen Car

Their aliases were legion, but the names finally affixed in police court were Edward Francis and LeRoy Hamilton. They hailed from Vancouver and were driving a car, alleged to have been stolen from a Vancouver man.

On arriving in Kelowna, they approached two prominent members of the Oxford Group movement. They told a tale of misadventure with their auto and how their meagre finances had been expended in repairs.

They failed to gather in any money there but went to a jewellery store and gave the names of the Oxford Group persons. They expressed great interest in the Oxford Group cause, and told how their speedboat was being sent up from the Coast for the races here.

They produced a \$35 cheque and obtained jewellery to that amount. Later on they obtained \$5 from another Oxford Group person and offered

(Continued on Page 10)

COMPLAINT OF FLOODING BY IRRIGATION

Mr. Robert Pearson Protests To Council Against Conditions Affecting His Property

Attendance at the regular session of the City Council on Monday night was reduced to Mayor Jones, Aldermen Gibb, Harris, McKay and Pettigrew by the absence of Ald. Whillis, who is ill, and of Ald. Foster, on vacation in England.

Speaking to a resolution granting Ald. Whillis a month's leave from his duties, His Worship expressed much regret that the condition of the Alderman's health made it necessary for him to undergo a surgical operation, which, it was to be hoped, however, would remedy the cause of the trouble.

Mr. Robert Pearson attended to make a stormy protest in regard to repeated flooding of his property by irrigation water, a condition which he obtained for a number of years, he stated, without his being able to secure redress, although he had brought the matter to the attention of the authorities several times.

Mayor Jones promised that immediate investigation would be made, although it seemed to be a matter within the jurisdiction of the Water Rights Branch office, and it was arranged for members of the Council to inspect the seat of trouble in company with the City Engineer.

Offer For Property Declined

An offer by Mr. A. McKim of \$300 for Lots 27 and 28, Block 15, R.P. 262, was given consideration and discussion by the Council, but finally was declined as being too low.

Sons Of England Picnic

Permission was granted to the Sons of England Benefit Society to hold a picnic in the City Park on Thursday afternoon, August 13th.

Lease Of Building

The building on the north-west corner of Lot 4, Block 9, R.P. 462, was rented to Mr. Frank Schaefer at a monthly rental of \$5.00, payable in advance, dating from Aug. 1st, 1936.

Pound Report

The monthly report of Mr. J. Powick, Poundkeeper, showed that three cows had been impounded during July, all being released on payment of a total of \$9.00 in fees. One dog, impounded by the police, was not claimed by any owner and was sold for \$2.00.

The syllabus of business before the Council was unusually light, other matters consisting of the usual grist of routine in regard to trade licences and relief, and adjournment was reached soon after nine o'clock, the usual session in committee of the whole being held thereafter.

Tree Fruit Board Has Wider Powers For Control In B.C. Than Ever Before—Can Fix Prices Through Designated Agencies And Control Truckers And Cash Buyers

OUTSIDE VEGETABLE DEAL THROWN OPEN

Schemes under the amended Provincial Marketing Act, as brought down last spring in the B.C. Legislature, have been put into force this week for the Interior Vegetable Board and the B. C. Tree Fruit Board.

Control of prices through an agency and wider powers than even existed under the Dominion Act have been inaugurated by the bill framed by Hon. K. C. MacDonald, Minister of Agriculture.

From the standpoint of the Tree Fruit Board the scheme is being gazetted today, it is understood. For the first time since the Provincial Government interested itself in the Provincial Marketing Act and the Amendment Act, the Tree Fruit Board will be given power to designate an agency and fix prices. It also has the power to licence producers, processors or marketers, and can regulate truckers or cash buyers selling in the province.

The Board can now seize and dispose of any of the regulated products kept, transported or marketed in violation of any order of the Board, according to the new scheme.

On Wednesday the Interior Vegetable Marketing Board was brought under the new Provincial Marketing Act, and the Interior Vegetable Marketing Agency was designated as the agency through which all sales to points within the province must be made.

All old arrangements will be dropped and the Board will concentrate solely on control within the province. Any attempt to control inter-provincial trade went overboard this week, and the deal in this respect is wide open.

"We shall have the means of controlling a great proportion of the potato deal, quite a percentage of the onions, and all the canning tomato deal, and a good part of the semi-ripe movement," was Col. E. Poole's statement.

Mr. Thos. Wilkinson, Mr. R. B. Homersham and Col. E. Poole will constitute the three members of the Interior Vegetable Board.

This new scheme is believed to give a chance to hold some sort of control together with the hope that the scope may be broadened as time and conditions permit. When the peak of the vegetable movement is over a voluntary arrangement for shipments outside the province may again be set up, it has been intimated.

Increased Distribution
In speaking of the B.C. Tree Fruit Board's new authority under the scheme, Mr. W. E. Haskins has stated that a controlled deal may materially increase distribution in the highly-competitive B.C. markets of Vancouver, Victoria, Nanaimo and Prince Rupert.

Last year some 300 cars were sold on this market and it is hoped that an additional 100 cars will be sold this year, if prices are regulated and a great deal of the unfair competition is eliminated.

Then again a good many of the theories propounded in the Valley to control the deal may be worked out in the B. C. markets, without affecting materially the whole deal.

Truckers operating in the province will not be able to act indiscriminately under the new scheme, as the Board has the power to seize fruits that have not come under the regulations.

There is the power to licence producers or cancel producers' licences, if any violations occur.

Col. Poole Disgusted

In commenting on the recent vegetable voluntary control arrangement break-up, Col. E. Poole stated: "It is just too disgusting." In looking back over the recent collapse in which the tomato deal was particularly featured, Col. Poole declared that 10 per cent of the shippers who remained outside and the growers who supported them, made the voluntary control impossible.

"It just goes to show that any sys-

tem based upon voluntary arrange-

ment eventually comes to grief," stated Col. Poole.

The majority of growers and shippers were willing to play the game, he believes, but the "kiters" were willing to undercut and the growers delivering to them played into the hands of the outfits that undermined the structure.

Then the rest of the shippers had to protect themselves and meet this competition. There is now a stiff demand for vegetables, and the growers could have obtained splendid returns if they had hung together, it is considered. Under careful control, the growers would have obtained much better prices.

JOAN CUSHING IS SECOND AT CHELAN

Joan Cushing, 15-year-old Kelowna mermaid, who captured the Wrigley trophy and the hearts of the Kelowna Regatta supporters when she won the half-mile swim and defeated the best Coast representation, gained further honours at the Chelan Regatta last Saturday.

Competing in the mile swim for ladies, Miss Cushing placed a close second to Eleanor Peden, of Victoria, in a thrilling battle. Miss Peden's time was 29:44.8.

MORE THAN ONE THOUSAND SIGN GROWERS LEVY FORM SO SHIPPERS CONTRACTS WILL NOW BE SOUGHT

Haskins and Hembling Return From Oliver Meeting Where Southern Growers' Problems Discussed—Satisfied With Way Growers' Signatures Are Arriving

Messrs. W. E. Haskins and G. A. Barrat, of the Tree Fruit Board, returned to Kelowna yesterday from Oliver, where they met growers in two lengthy sessions, and expressed satisfaction with the manner in which the growers were turning in their forms and agreeing to the one cent per box levy on apples and pears to finance the B. C. Tree Fruits Limited.

By Wednesday afternoon a total of 1,039 growers had been checked off according to districts while a number of others had been received but had not been dealt with. The total number of registered growers in the Okanagan area is 1,736.

Better Returns in South
Of the larger districts Penticton and Summerland have shown the best response with 152 out of 201 agreeing in Penticton and 188 out of 255 in Summerland. Ellison and Winfield-Okanagan Centre and Sorrento have made good returns among the smaller centres, while Oliver and Naramata are fair with 70 out of 121 and 77 out of 95 respectively.

In commenting on the meeting of Haynes Co-op. and Oliver growers, which lasted from 9:30 Tuesday night until 12:30 o'clock Wednesday morn-

THE KELOWNA COURIER

AND
OKANAGAN ORCHARDISTPublished Thursday by The Kelowna Courier Limited
Edited by G. C. ROSE

The COURIER does not necessarily endorse the sentiments of any contributor or article. To ensure acceptance, all manuscripts should be legibly written on one side of the paper only. Typewritten copy is preferred. Authors are asked to send their copy to the Editor's office. Letters to the Editor will not be accepted for publication under a "pen name" or pseudonym. The author's correct name must be appended. Contributions received after Thursday night may not be published until the following week.

As the staff works on Thursday afternoon, The Courier Office is closed on Saturday afternoon for the weekly half-holiday.

THURSDAY, AUGUST 13, 1936.

THE GODSEND OF IRRIGATION

Vivid descriptions in the press of the drought conditions which have converted large areas of the western and central states and the Canadian prairies into arid desert without a speck of green should make the people of the Okanagan profoundly thankful for the irrigation systems that provide protection for their crops. The Valley has known seasons when the reservoirs have been exhausted at a critical time, and the anxiety then caused surely cannot be forgotten. Since then, improvements have been effected in storage and water that previously ran to waste in spring thaws and freshets has been conserved or turned to account, so that it has been possible to use the natural flow of streams in a number of cases, leaving the reservoirs to be tapped at a later time when the creeks are low.

The winter seasons, too, have been favourable, as there has been an ample snowfall along the watersheds, even if comparatively light on the lower levels. Heavy falls of snow in the cities entail a certain amount of discomfort, but the amount that falls in the Okanagan towns is seldom enough at any one time to cause any damage, and there is always the consoling thought that it represents a much greater quantity in the mountains and insurance of an ample supply of water the next summer. Snow is of supreme importance to the Okanagan, because the irrigation supply is not derived from great river systems, such as the Colorado and the Columbia in the United States, but from the impounding of melted snow in lakes, sloughs and reservoirs on top of the mountain ranges, and a winter of light snowfall is bound to be followed by a corresponding decrease in the amount of water conserved.

The construction and maintenance of irrigation systems may be costly, and users are prone to grumble at the burden of water taxes and tolls, but what would the Okanagan be without these systems and dependent solely upon the natural flow of streams? Settlement would be confined, as in the cattle ranching days, to locations adjacent to the larger creeks, which can be counted on to run the whole summer, and none of the great development of the past thirty years could have taken place.

The whole community, then, whether growers of produce or indirectly dependent upon the successful culture of crops as the mainstay of all business in the valley, should be profoundly thankful for the benison of irrigation and its insurance against harvest failures, want and ruin.

DINNER MUSIC

It is an amazing thing that, despite the ridicule heaped upon him by the press and commentators in general, the adenoid tenor still holds a prominent place in radio programmes and inflicts his doleful caterwaulings upon the suffering ears of the public without let or hindrance.

Time was when "dinner music" was synonymous with chamber music of the lighter order, and diners could enjoy their meals to the musical accompaniment of the less highbrow classics, melodious Strauss waltzes or the bright and inconsequent melodies of Gilbert and Sullivan operas, but the Canadian Radio Broadcasting Commission has so timed its programmes with reference to reception in Eastern Canada only that the evening meal in British Columbia is now generally served in the middle of what sounds like a riot in the kitchen. Knives, forks, tin pans and china are apparently dashed to the floor, grunts, groans, crashes and bangs herald a climax in the orchestral music (?) which introduces the high falsetto of the adenoid tenor, who makes things infinitely worse by squawking through his nose some ineffable rubbish about "ye-oo" and "ter-roo," "hear-r-r" and "par-r-r" and all the rest of the banal stuff that has been revamped over and over again for the past twenty years. But all things must come to an end, and as the crooner runs out of one-syllable rhymes and brings the agony to a conclusion, his hearers offer up a prayer of thanks, but their gratitude is short-lived as their nerves are assailed by a great final crescendo from the orchestra in which the glassware and china remaining on the kitchen shelves, joins with tin pans and pot lids in a grand smash on the kitchen floor, accompanied by loud groans from the saxophones, engulfed and buried in the concluding avalanche.

If father has spilled his soup all down his front, has choked on a piece of beef or has stuck his fork into his tongue, blame him not but rather the moguls of the Canadian Radio Commission, who serve such nerve-wracking trips as music during the dinner hour in British Columbia.

ARE WE HEADING FOR RETURN OF COPPER MINING?

(Grand Forks Gazette)

Those familiar with the old days of copper mining in the Boundary district have been watching the forward bulge in the copper market in recent weeks with increasing interest.

It is only a few odd years ago that copper mining gave employment to something like 3,000 men between here and Midway, with a payroll of upwards of \$3,000,000 annually, and produced some 65 per cent of the copper of Canada. In those days the price of copper hovered around 10 to 12 cents a pound and it was freely predicted that it would go higher. Within a few years, however, copper soared to around 28 cents a pound, and for a considerable period during and following the war the price of copper was in the highly profitable scale.

In recent years copper has been in the doldrums, and experts have said that the price could not rise again to any appreciable figure above 6 or 7 cents. In recent weeks it has climbed close to 10 cents, but the most interesting feature is that the surplus stocks of the red metal have been rapidly declining; in spite of the fact that production in 1935 was 50 per cent greater than in 1934.

The increase in price has followed consistent for-

Points Of View

MEMBER OR DELEGATE, WHICH?

(Victoria Colonist)

A lively controversy has lately arisen between two wings of a political movement or party whose title includes the term "co-operative." This controversy bears chiefly upon the relation which ought to exist between a member of the Legislature and the electors. Is he a delegate bound to carry out definite instructions laid upon him by his party, or should he be guided by his own convictions?

One hundred and sixty-two years ago Edmund Burke delivered an address to the electors of Bristol upon this very subject. One of his colleagues had expressed himself as being in favour of the coercive authority of "instructions" or "mandates," and Burke thought it his duty to repudiate any such notion. He agreed that a parliamentary representative ought to live in the strictest union, the closest correspondence, the most unreserved communication with his constituents. He believed that their wishes should have great weight and their opinions high respect with him, and that he should always prefer their interest to his own. Nevertheless, there were some things which he must not sacrifice to them, which he does not derive from them, nor from the law and the Constitution, but from Providence, namely, his own unbiased opinion, his mature judgment, his enlightened conscience. Instead of a mere summary of Burke's views, however, it will prove far more interesting to take the text of his address as it stands or as much of it as space will afford.

"Your representative owes you, not his industry only but his judgment; and he betrays, instead of serving you, if he sacrifices it to your opinion. My worthy colleague says his will ought to be subservient to yours. If this is all, the thing is innocent. If government were a matter of will upon any side, yours, without question, ought to be superior. But government and legislation are matters of reason and judgment, and not of inclination; and what sort of reason is that in which the determination precedes the discussion?"

"Authoritative instructions, mandates issued, which the member is bound blindly and implicitly to obey, to vote, and to argue for, though contrary to the clearest conviction of his judgment and conscience,—these are things utterly unknown to the laws of this land, and which arise from a fundamental mistake of the whole order and tenor of our Constitution. Parliament is not a congress of ambassadors from different and hostile interests, which interests each must maintain, as an agent and advocate against other agents and advocates; but Parliament is a deliberative assembly of one nation, with one interest, that of the whole; where, not local purposes, not local prejudices, ought to guide, but the general good, resulting from the general reason of the whole. You choose a member indeed; but when you have chosen him, he is not member of Bristol, but he is a Member of Parliament. If the local constituent should have an interest or should form a hasty opinion, evidently opposite to the real good of the rest of the community, the member for that place ought to be as far as any other from any endeavour to give it effect."

THE STRUGGLE FOR A CHEAP PRESS

(Victoria Colonist)

The struggle in England for a cheap press was carried to victory through what might be termed "newspaper bootlegging." From 1712 every copy of a newspaper had to be taken to the Stamp-Office for stamping. The original duty of one penny had grown by 1815 to fourpence, which brought the cost of an ordinary paper to sevenpence, a price prohibitory to all but the well-to-do. A cheap press sprang up that managed by various devices to avoid for a time the stamp duty. One paper was William Cobbett's "Political Register" (denounced as "Cobbett's two-penny trash"), and the publications of Robert Carlyle, whose rampant atheism deepened the antagonism towards the movement for the freedom of the press.

It was the "unstamped agitation" that compelled the reduction of the stamp duty to the original one-penny figure. A small group of daring spirits, of whom Henry Hetherington, the printer, was a leader, succeeded in printing and getting into circulation such papers as "The Poor Man's Guardian," each copy of which bore the challenging legend: "In defiance of the law to try the power of right against might." Fictitious names of publishers were given to avoid prosecution. Copies were hawked about surreptitiously and the police outwitted by various devices.

For this newspaper bootlegging, printers, publishers and salesmen suffered. Hetherington spent two years out of five in prison. The circulation of the illegal publications mounted until it was estimated to have reached 130,000. In face of this the Government confessed its defeat and in 1836 the fourpenny stamp was cut down to one penny. Nineteen years later, when the Crimean War made a great demand for news, the final penny was cut off, and another step was taken towards attaining freedom of the press. These newspapermen of 1836 were lawbreakers and bootleggers, but it is fitting that we of a freer day should, on the centenary of their victory for freedom, give them a word of tribute.

ARCH AND COSTLY ENEMY

(Kamloops Sentinel)

The smoke pall which hung thickly over the city this week and blotted out the sun brings again to our attention the fact that carelessness in the woods and rangelands may start a fire and cause destruction that cannot be measured in dollars and cents. Luckily the fires in this district are not destroying valuable stands of timber. They are, however, bringing settlers much anxiety as they approach close to farm houses and haystacks. The fires, too, are adding to the taxpayers' cost of living, for a certain amount of control must be paid for.

From all indications it would appear that the fires are not acts of God. The inference is that they are caused by human agency. Possibly some are started by Indians or by ranchers who want more range for their cattle and take this easier method of clearing it. A great many, though, are the direct result of carelessness; the lighted cigarette stub thrown hastily out of an automobile window, the campfire not properly extinguished, the slash burn left unattended.

Some one in the United States, trying to estimate what carelessness costs that nation, eventually arrived at a figure that contained about a score of ciphers, a sum so stupendous that the human brain can hardly visualize the value it represents. Forest fires accounted for quite a portion of that figure, and of the cost of forest fires a large percentage was traced directly to human carelessness.

The destruction of a great natural resource by fire is a sorry sight to see—especially when the human race is responsible.

Foreign demand for copper and it is hinted that new construction on a wide front may yet send the price of copper much higher. Construction work that has been lagging behind for years is now being done and gives the copper industry renewed activity.

While ten-cent copper is not likely to start any excitement in local copper mining, another three or four cents at top of it should start real activity throughout the district. There are a number of properties in and around Phoenix that should blossom like the rose if copper rose to 14 or 15 cents. And going back over the cycles and re-actions, the return of a fairly healthy price in copper looks not improbable.

The real period of sufficient production and adequate distribution is ahead of us.—Henry Ford.

A Prairie Reporter Sees The Okanagan

(By Wm. Bremner, Jr., University of Saskatchewan, Saskatoon)

The prairie is hot these days! We sweltered in 100 degree heat for two months, with the air so dry we couldn't breathe without our lungs seeming to burst. And dust! So much dust that it takes three days for the housewife to clean up her house, and three weeks to get it out of your nose. Over the level landscape you see the heat waves travelling end on end, blurring all distant views. No rain for weeks on end, and when some does come it pours for twenty-four hours without ceasing, so that for some days you walk only in inch-deep mud.

So British Columbia looked and felt mighty fine to us when we arrived. In Vancouver we had wonderful weather for three weeks, specially ordered by Mayor McGeer for his Jubilee. Everything green without the dust covering to which we were accustomed. We thought it was the acme of summer scenery and weather. But some one told us to visit the Okanagan Valley if we really wished to see beauty. We came and are glad we did.

Leaving Kamloops by car in the early morning, we travelled over a gravelled road similar to prairie roads, only this one twisted and turned and went up and down, over and around the mountains. On all sides were tall pine trees which gave considerable shade from the bright sun and kept one just cool enough. A change from the straight, long and hot highways over which we are used to travelling. The road was comparatively free from traffic and this was a pleasure, for we had no dust, a thing a motorist likes. And before we knew it we were in Vernon.

Streets shaded by tall trees made one think this was a nice place to live. The air was cool and life easy. But we only stayed long enough to eat an ice cream cone and thus missed seeing the whole town. Not many miles out we came in sight of Long Lake, which we were approaching, the road running along above it. In some places we had the impression of hanging over the water, so steep were the hills surrounding it. And we twisted and turned more than we had done before, making fast driving impossible. But we had no wish to travel fast, all taken up by the magnificent views which confronted us. The lake looked like a blue mirror reflecting the high hills on the other side and making them appear twice as beautiful as they were. Across the level water we saw mile after mile of fruit trees, planted in geometrically perfect rows. No knowing much of the art of fruit growing, we could not discern what fruit they were. But back east, most of the apple boxes are labelled "Kelowna", so we concluded they were apples. We never tired of watching the lake, as every turn surprised us with something new. And so I can truly say that the scene which one sees untravelled before them from the highway between Vernon and Kelowna ranks with Banff and Lake Louise. It is something of which the Valley people can be justly proud.

We rolled into Kelowna at mid-day to see a miniature Vancouver, so numerous were the flags and lights. There must have been hundreds of people on the streets, and everyone in festive mood. It was the Regatta. We never have these on the prairie, and were interested to see what was offered. The city buildings in the business section also called forth our praise. The Royal Anne Hotel had the appearance of "a bit of old England," the Willow Lodge was something one reads about but seldom sees. Small wonder that visitors return again to Kelowna, when the city can give them such fine service. Through the courtesy of the Regatta Committee, we saw the "show" both from the club house and from the starters' boat. We enjoyed every minute of it. With the three bands marching about, flag bedecked streets and so many people, Kelowna was certainly entering into the Jubilee spirit.

But our short stay in this pleasant town is over and we're off to see what southern British Columbia has to offer the traveller. We regret having to leave and can only say: "We'll be back."

EDUCATIONAL CHANGES PREMATURE

(Vernon News)

In less than one month the kiddies will be trooping back to school. The nine o'clock bell will have the new-old significance.

Because of this, there is unusual interest in the announcement by Hon. G. M. Weir, Minister of Education for British Columbia, that there will be introduced an entirely new system of teaching classes and that British Columbia is to have a new approach to education.

It is said that for a year educational experts have been working on the new school curricula, and that their conclusions, just announced, will put schooling on a drastically changed basis. There are not to be new text books, thank God for that, but the teaching will be altered to conform with the latest theories of education. This is said to be to educate the child for life rather than to fill him with facts.

It is said that how this is to be done is too technical for the layman to understand fully. That a book of 247 pages has been issued covering the plans for the elementary schools. Another book of equal size will be issued late in August to outline the programme for grades 7, 8 and 9. A third book will appear in 1937 for High Schools.

There will be very general agreement that the teaching methods are in need of revision. There has for long been criticism of them. But for the province of British Columbia to undertake to alter them until the school teachers are instructed how to impart knowledge according to the new idea, seems to be putting the cart before the horse. To put them into use while they are so half-baked that the lay mind cannot understand them fully, is the rankest folly. The only conclusion the public can come to, is that the announcement is premature. It is childish to suggest putting them into effect, before the teachers themselves are thoroughly competent to give instruction, before even the books of explanation are ready.

DUTY DODGERS, TAKE WARNING!

(Revelstoke Review)

According to information received at this office, duty dodgers intent on bringing American goods across the line into Canada under the forty-eight hour legislation, are running into bunkers on almost every trip across, mainly because they are ignorant of some of the rules governing such purchases. So take a tip and acquaint yourself with the following hints.

Don't Tell Officer

Every person crossing the line for forty-eight hours or more is required to swear out an affidavit that the journey is not being made for the explicit purpose of buying goods. Most people have a habit, with a very law abiding gesture, of asking the Customs officers what things are duty free, which, of course, puts them in the category of making a special trip for purchasing purposes, and they are apparently liable to pay duty on their return, with any kind of goods.

So don't ask the courteous officer what you can bring back duty free.

Bathrooms Not Allowed

And don't try to pack a bathtub in your suitcase, they aren't allowed. Neither is anything that you can't squeeze into your bag. Ambitious penny savers have tried to bring everything but a house back into Canada, refrigerators, bath tubs, roofs, sides and backs of cars, since the two-day law came into effect, much to the confusion and distress of border officers. So you can't furnish your house with American made furniture and fixtures.

Clamping Down Gradually

The King government, responsible for the duty-

Odds And Ends

WISE AND OTHERWISE

IS IT "THE LAND OF THE FREE"?

Mr. Francis P. Garvan, President of The Chemical Foundation, Inc., and the Farm Chemurgic Council, in addressing the Dearborn Conference of Agriculture, Industry and Science at Dearborn, Mich., last May, on the subject of "Scientific Method of Thought in Our National Problems," made the following statement, in a session which included names famous for leadership and high thought across the length and breadth of the United States:

"Now, what is our present position? I repeat, the government estimates known foreign investments in our securities at \$5,000,000,000. To this I add, based on our investigation and my experiences with foreign investments in this country during the World War, 40 per cent for hidden ownership—a total of \$7,000,000,000,000, practically all untaxed, and which we dare not tax.

"Go down to Washington and see whether or not they dare tax any of the \$7,000,000,000 invested here, for fear they will start a run such as occurred in 1929.

"Their short-term balances here amounted on December 31, 1935, to \$1,219,000,000. We are right back in the position of October 1, 1929. Our prosperity is in the hands of foreign nations, led by England. All international questions will be settled under the threat of that power over us—tariffs, stabilization, war debt, diplomacy and all. Your tariffs will be written in London. Your stabilization will be written in London. The settlement for a nickel on the dollar of your foreign debts may be settled in London. All your diplomatic questions will be settled in London, and that will settle you.

"No matter who is elected President this fall, by force of the position we have drifted into, through our failure to keep proper books to keep telling us monthly where we are going, that President and that Congress will be compelled to dance to the tune of 'God Save the King,' and J. P. Morgan & Co., head and control of our New York banks and head of the agents of foreign banking systems, will wield the baton."

HAIR TO KELOWNA

Herewith is Mr. J. J. Horn's contribution to Regatta Days in Kelowna, given to the annual Banquet at the Royal Anne on Thursday evening:

"Hair to Kelowna, Whose Regatta is famed in the West

From Coast to Coast, our cities may boast,
But we love Kelowna the best.
Hair to her scenes ever beautiful,
Hair to her Lake of renown,
Hair to her Past, her Present, her Future,
Hair to Kelowna, Our Town."

OH! THAT HEAD!

Did you hear of the Regatta visitor who walked off the end of the wharf with all his clothes on early Friday morning? Oh, you didn't? Well, there was no harm done. When discovered later he was wringing out his pants and coat and remarking that he had just decided to go in for a swim. And did you hear of the Wenatchee Band player who lost his teeth out of the second storey window? And what of the chap who rode a bicycle around the booths of a local restaurant? And the visitor who woke up in the early morning hours moving the lawn, and dressed in sky blue pyjamas?

THANK GOODNESS THAT'S OVER

Oh boy! After all, we are glad the Regatta is over. It was a lot of fun, but there was a lot of hard work attached as well, and who wants to work hard on these hot summer days? There have been praises galore cast around Dick Parkinson and his merry lads who organized the Regatta, and we believe that they deserve every one of those nice remarks. For promptness of programme, lack of fuss and bother, and smoothness and general speed of events the Regatta was certainly an eye-opener. Every official knew the job he or she was to do, and they all carried out their duties with the greatest of ease.

SLOW AND COSTLY?

(Pentiction Herald)

"At the present rate it will take some years to complete the project, which will be costly."

So says a Victoria dispatch about the Hope-Princeton gap of the Southern Transprovincial Highway.

True enough, at the present rate it will certainly take some years to complete the road.

The Department of National Defence finished about a mile a year of new road. But it did valuable work in improving the sections previously in existence. There is some splendid highway along the route, thirty feet wide and, even without much surfacing, capable of permitting a fifty-mile-an-hour speed.

The fifty miles of road already in existence out of Princeton has not been heavy construction. Nor would it have been expensive but for the fact that for several seasons it was handled under the relief camp system and this can only make for undue cost.

The twenty-five-mile gap between the end of the Princeton section and the end of the Hope section will mean rock work in one or two places and some heavy clearing. But it cannot be described as costly, that is in comparison with the amount of work needed in the building of the Fraser canyon road or the stretches along the Big Bend.

The Hope-Princeton has been expensive because of the relief camp system, which meant heavy maintenance-of-men charges but little actual progress.

Fifty thousand dollars to be devoted to the job this year on a contract will not take work very far ahead, but at least it means something definite in the right direction. When is the contract to be let and the job started?

The Victoria dispatch says that work will proceed on the eastern or Princeton end and not on the Hope end. General assumption had been that it would be the other way round, as from the Princeton end there has been very little surveying in advance of building and the construction front is now quite a long way from the supply base at Princeton.

However, there are plenty of good camps along the route and the road is in good shape so work could be carried along nearly anywhere.

It is to be regretted, however, that Victoria suggests it will take some years to complete the work at the present rate of progress and that it will be costly. This seems to be a vague warning that we cannot expect much and the Hope-Princeton will be allowed to languish from year to year just as it has been languishing for the past two decades.

One good contractor could close the gap in a single season.

Another year of real effort would have the road surfaced from Hope to Princeton.

And then the Southern Interior would come into its own.

free legislation, is gradually amending the laws concerning it and making them more definite so that the ordinary public and officers alike will be freed from promiscuous and vague ideas about the issue, and at present it is a continuous issue between government officials and across the line buyers.

Good Rule To Follow

How am I to be governed in my purchases, then, you ask? Advice being given American patrons from every customs desk is summed up in the following to-the-point rule. "Don't bring back anything that

In Bygone Days

From the files of The Kelowna Courier.

THIRTY YEARS AGO

Thursday, August 2, 1906

"The north part of Richter Street is in a disgraceful condition with waste irrigation water, and the Council should sternly enforce the provincial statute which provides penalties for flooding the public roads. A gentleman who went out to the north end of the street several days ago to examine a piece of real estate was influenced seriously by the impassable roads in deciding not to make the purchase."

"There was launched successfully on Monday from the bathhouse of Mr. H. Lyons a smart new gasoline launch built by him for Mr. R. N. Dundas, of Shanty Point. The dimensions of the boat are: length, 22 ft., beam, 6 ft. It is fitted with a 4 h.p. engine and has a torpedo stern. Trial runs were made Tuesday night and Wednesday morning to the entire satisfaction of owner and builder. The name of the new boat will be 'Mascot II.'"

"It was with pained surprise that the citizens of Kelowna learned of the death of Mr. H. S. Scadding, who lately left our midst and the post of C.P.R. agent, which he had held for eight years, for well-earned retirement in Toronto. Details of the cause of death are lacking, being contained in the limits of a brief press despatch, but it appears Mr. Scadding suffered severe injury while stepping off a street-car and died the following day, July 26th, at the residence of his son, Dr. Scadding."

"The contract for the new C.P.R. station and agent's residence has been let to a Vancouver firm, a representative of whom was down on Monday, looking over the ground. He stated that he would be along early next week with his gang and would commence operations at once. Some delay has been caused by the sawmill here being unable to supply the lumber, but, as the mill will start running regularly in a day or two, there should be plenty of lumber available by the time the contractor is ready for it. The building over all measures 47 ft., 6 ins. by 31 ft., 6 ins. The contract, it is understood, was let for \$2,200."

The first ten lots offered for sale by the Okanagan Fruit & Land Co., at Manhattan Beach, were advertised in this issue at a price of \$1.00 per foot frontage on Okanagan Lake.

TWENTY YEARS AGO

Thursday, August 3, 1916

"Mr. Ira Law left on Monday morning for Ottawa, having joined the Forestry Battalion for overseas service."

Official nominations were made on August 3rd of candidates for the riding of South Okanagan in the forthcoming provincial general election. Those nominated were Mr. J. W. Jones, Mayor of Kelowna, Conservative, and Mr. L. V. Rogers, Principal of the Kelowna High School, Liberal.

The first through train on the new Kettle Valley Railway reached Vancouver on August 1st, carrying over a hundred passengers and a considerable quantity of express.

TEN YEARS AGO

Thursday, August 5, 1926

"Mr. W. R. Maxson has been appointed Game Warden for this District."

"The work of widening and generally improving the McCulloch road was commenced on Monday, a large gang of men being employed."

"Col. K. A. Ramsay, building contractor for the Canadian National Railway, was advised work on the C.N.R. station here last Thursday. Piles have been driven and the work of back-filling for the concrete foundations is proceeding, a large force of men being employed."

"The new fast C.N.R. freight service for this district was commenced on Friday. This is a daily service, except Sundays, the freight train from here connecting at Kamloops with the fast freight and express for Winnipeg and intermediate points and making a saving of approximately twelve hours over the previous schedule."

"The first C.P.R. freight train to travel over the C.N.R. line between Vernon and here reached the city last Friday, returning to the main line in the evening. The crew were Revelstoke men: conductor, J. McDonald; brakemen, L. C. Ferguson and J. F. Lancaster, engineer, E. H. Trueman. A considerable shipment of fruit, bound for prairie points, thus left the city for the first time in C.P.R. cars by rail alone."

"Great activity exists at the present time at all local canneries, most of which are still running on beans, the apricot pack having been put up. The Occidental cannery made a short run on tomatoes on Monday, but so far tomatoes have not reached the canneries in any quantity. Plums are being canned at some of the factories until the tomato season commences in earnest, which will be early next week. A considerable quantity of crab-apples will be packed this season."

Mr. F. B. Cossitt, of Vernon, was chosen as Liberal candidate for the Yale constituency at a nominating convention held at Pentiction on July 29th. Dr. K. C. MacDonald, of Vernon, Reeve G. A. B. MacDonald of Pentiction and Col. E. Edgett, of Coldstream, also were proposed but all withdrew, the selection of Mr. Cossitt being made unanimous.

A CHANGE OF HEART

(Creston Review)

When Harvey Harrison (later of Pentiction) was here in charge of Crestland Fruit Company, to hear him tell it, the orchardist had no better friend than the loquacious Harvey. But a great change has come over him since quitting the province and, instead of having the best interests of the producer at heart, his sympathies are now entirely with the consumer. And he demonstrated this change of heart in no uncertain terms in an address before the Rotary Club at Edmonton a few days ago on the penalizing of prairie citizens for the protection of a "comparatively small number of British Columbia producers." Stating that thousands of prairie buyers were paying excessive prices to protect B.C. orchardists, Mr. Harrison urged further tariff revisions to permit the importation of fruits and vegetables from the United States and Mexico. Hothouse tomatoes were used as a point of illustration where a tariff of 100 per cent, practically prohibits their use by prairie consumers.

A human heart is a skein of such imperceptibly and subtly interwoven threads that even the 'owner' of it is often himself at a loss how to unravel it.—Ruffini.

Let us recognize the beauty and power of true enthusiasm; and whatever we may do to enlighten ourselves or others, guard against checking up chilling a single earnest sentiment.—Tuskerman.

will not go into your baggage unless you desire to enrich the government coffers." And trunks are not included in the word baggage!!!!

CO-ORDINATION OF INDUSTRY

-DR. ALLEN HARRIS

(Continued from page 1)

The committee membership is split among a number of research subjects including alcohol, research, agricultural tariffs, Jerusalem Artichoke, cellulose, education, farm processing equipment, finance, plastics, power alcohol, industrial processing equipment, soy bean, tung oil, and insecticides and fertilizers.

"Industry is one hundred per cent. behind the new farm movement," declared Dr. Harris. "The industrialists are taking the lead and endeavouring to ascertain the uses which can be made of farm products in industry."

The movement was started by Henry Ford, who called the representatives of agriculture, industry and science together in 1935. More than 100 experts have been working in sub-committees during the past year, with staff headquarters at Dearborn. In one year the committees actually got big results, so much so that the huge sum of \$50,000,000 is now being invested in new industries to use industrial farm products. The ultimate aim of the Dearborn Conference is to have 50,000,000 acres placed under cultivation for the purpose of raising industrial crops.

Dr. Harris explained that the Conference was to stimulate interest in crop diversification and particularly in raising new crops for certain commodities now imported.

Other purposes, as outlined at the convention were:

To survey the variety of farm products, which through applied science, can be transformed into raw materials usable to industry.

To define the scientific research essential thereto.

To stimulate appropriate research in public and private institutions.

To activate American industry to apply the fruits to research.

To encourage the joint co-operation of agriculture, industry and science in promoting this significant development nationally.

Hoped for Results

Last May it was hoped that such co-operation would:

Result in the gradual absorption of

much of the domestic farm surplus by domestic industry.

Put idle acres to work profitably. Increase the purchasing power of the American farmer on a stable and more permanent basis, and thereby, increase the demand for manufactured products, and thus,

Create new work for the idle hands to do; revive American industry; restore American labour to productive enterprise; and relieve the economic distress of the Nation.

As an example of the methods adopted, Dr. Harris explained that if the Chemurgic Council extended its work to Canada, Mr. Carl B. Fritzsche, Managing Director, would come to the Okanagan and investigate the best possible crops for industrial use. He would find that, no doubt, sugar beets could be grown profitably here. Dr. Harris continued, "The next step would be to approach the sugar refineries and point out that the interior helps support the sugar refineries and they could help the Okanagan by buying the sugar beets instead of importing sugar cane."

Met Governor Landon

Dr. Harris met many famous personages while in the East at Dearborn and also at his fraternity convention at Cleveland, Ohio, where he had an opportunity to discuss various problems with members, such as Governor Landon, candidate for the Presidency of the United States, and Mr. Newton Baker. He also brought Mr. Carl B. Fritzsche back with him to Victoria.

Mr. Fritzsche had never visited this province before and was delighted with the beauties and possibilities.

Last fall, Mr. Fritzsche met R. H. Mackenzie King when he was in the United States arranging the Canadian-U.S. reciprocal trade treaty. Mr. King was so impressed with the work being carried on by the Farm Chemurgic Council that he invited Mr. Fritzsche to visit Ottawa at a later date and discuss the matter more thoroughly.

Dr. Harris' ambition is to have a similar Council set up in B. C., and across the Dominion. Through the string of experimental stations already in existence, research work could be carried out. But industry must be made conscious of its need to co-operate with agriculture before any marked progress would be made, Dr. Harris opined.

Industries Now Being Developed

Some of the industries started across the line as a result of the Dearborn

Conferences include a 20-ton per day mill at Everett, Wash., using hemlock plants to produce power alcohol for a motor fuel, vegetable fibre plants, plants finding new uses for cotton, tung oil development plants, soy bean, plastic and oil extraction plants.

It has been discovered that strips of cotton laid on roads will prevent any breaking of the hard surfacing when laid over top.

Soy bean acreage has greatly increased in the United States. Starting next month in Kansas, a new plant will take care of cut potatoes, sugar beets, artichokes and corn for the development of power alcohol for motor fuel. Already orders far exceed possible production for many months.

"Here we have a staff at the Summerland Experimental Station doing valuable work and nobody paying much attention," remarked Dr. Harris. He granted that research work was a gamble and the right solution might be found in six months or not for six years, but he wished the B.C.F.C.A. or some similar body would take hold of a scheme similar to that carried out by the California Fruit Growers' Exchange.

The main problem of the lemon and orange producers was that of surplus and poor crops. The Exchange turned over the sum of \$500,000 to two plants erected at Pomona and Ontario, Cal. Cull oranges and lemons were turned over to these two plants with the proviso that they were to make the best use possible of this surplus and any receipts over operating expenses would go back to the growers in the form of a bonus.

Results Justify Experiments

The results now obtained more than justify the experiment. Through this salvage proposition the growers have received several million dollars in bonus, twelve research authorities are now employed at the plants, and the machinery now located is valued at \$1,500,000.

Through the research carried on, the citrus fruit growers now control the sale of all pectin used in the United States and they have control of the citric acid market in their country.

Recent experiments have shown that lemon juice may be the ideal quench for use in certain types of steel.

At the same time the surplus fruits are taken off the market, and the citrus growers have been able to get better prices for their quality produce.

ELLISON SCHOOL HAS CHANGE OF PRINCIPAL

Miss V. M. Ford Succeeds Mr. E. K. Evans, Appointed To Kelowna Junior High School

It is with regret mixed with pleasure that we learn that Mr. E. K. Evans will not be with us when school opens next month. Mr. Evans has given eight years of faithful service to Ellison School, and we wish him and Mrs. Evans good luck and happiness in the future.

Miss Verna Ford has accepted the position of principal and teacher of the senior grades, and the appointment gives great satisfaction to every one interested in the welfare of the school.

Mr. and Mrs. Cesare Bertucci left on Saturday evening by C.N.R. for Vancouver, where Mr. Bertucci will enter St. Paul's Hospital for treatment. His many friends hope to hear good reports of him soon. Melba and little Cesare are staying in town with their grandmother, Mrs. James Hubbard, during their parents' absence.

Miss Mildred Conroy, of Vernon, is staying for a couple of weeks with Mrs. Fraser Black.

Mrs. J. F. Anderson is home after a pleasant two weeks holiday at Vancouver.

Work on the overhead crossing has ceased and we hear it cannot be resumed until further orders are forthcoming. One wonders if it would not have been better to have spent the available amount on repairing roads rather than leave another unfinished job to be an eyesore on the landscape.

An enterprising firm is offering to sell poultry to small farmers on the installment system. The first payment on a duck entitles you to a little down.

WINFIELD

Mr. and Mrs. John Edmunds left for Vancouver Friday evening, where they will spend a few days.

Mr. and Mrs. John Coe and little sons, of Penticton, were Winfield visitors last week.

Mr. and Mrs. Wm. Veness and little daughter Evelyn spent the week-end at Salmon Arm.

Miss Grace Brodie was a passenger to Vancouver last week.

Mr. and Mrs. R. Perry, of Vancouver are guests at the home of Mr. and Mrs. Wm. Cornish.

Mr. Edward Robertson, of Mara, was a Winfield visitor on Sunday.

Mrs. R. P. White and daughters, Mary and Nancy, returned home on Sunday, after spending the past five weeks at the home of Mrs. White's parents, Mr. and Mrs. Ashman, of Lavington.

Mr. and Mrs. Ernie Pow, of Cherry Creek, have moved to Winfield, where they will make their home.

Mr. and Mrs. O. D. Burns and Marjorie, accompanied by Mrs. John Arnold, returned home last week after spending the past two weeks in Vancouver.

cover, where Mrs. Burns visited her sister, Mrs. V. Hume.

Mrs. J. Arnold returned home on Saturday, after an extended trip to Vancouver and Penticton.

Mr. and Mrs. Wm. Reed and Joyce, moved on Friday to Vernon, where they will reside in future.

Eldred and Gilbert Berry and Bob at Beaver Lake.

Gill and spending the week camping

Herbert, of Kelowna, British Colum-
bia, teacher, intends to apply to the
Commissioner of Lands for a license
to prospect for coal, petroleum and
natural gas over the following de-
scribed lands:

Section 34, in Township 29, Osoyoos
Division of Yale district, Province of
British Columbia, and containing 640
acres, more or less.

Dated this 6th day of August 1936.

GORDON D. HERBERT. 2-5c

SOLARIUM TREATS
LARGER NUMBER
OF PATIENTSHealth Of Children Generally
Excellent, With No Cases Of
Communicable Disease

The report of the Medical Superin-
tendent, Dr. Glenn Simpson, to the
Board of Directors of the Queen Al-
exandra Solarium for Crippled Child-
ren, at Malahat Beach, Cobble Hill,
Vancouver Island, shows that the
month of July has been one of the
best in the history of the institution,
which receives the active support of
Women's Institutes and other women's
organizations throughout the province.

"The number of patients has shown
a marked increase," states Dr. Simp-
son, "and all treatments have been
carried out without set-backs or fric-
tion."

"The health of the children has
been excellent. There have not been
any cases of communicable disease."
"Our laboratory is functioning on a
small scale and estimates are now be-
ing obtained for the expenditure of
the kind donation given by Mrs. Don-
ald."

Solarium statistics for the month
are given by Dr. Simpson as follows:
Admissions during July, 1936 8
Discharges during July, 1936 2
(one child transferred home
for a month)
Patients in Solarium, July 31, 1936, 70
Number of consultations in July 10
Number of operations in July 5
Number of X-Rays taken in July 9
Number of Laboratory
examinations 50
Number of physiotherapy
treatments given 635
The present number of patients is
71, with five more having been ad-
vised to admission.

keting deal as a separate pool.
This will be in the form of a grow-
ers' pool and is the result of the re-
cent attitude taken by the growers in
the Oliver-Osoyoos district, when
they rebelled over the cucumber deal
and threatened to break away from
the Vegetable Board entirely.

MINISTER OF
AGRICULTURE

(Continued from page 1)

Hembling's version of Mr. Burrows' discussion.

"Hon. Mr. Gardiner is evidently bas-
ing everything on the Fruit Act,"
stated Mr. Hembling.

Although the B. C. delegate covered
most points thoroughly in his report
on the Imperial Fruit Conference, he
outlined one point more fully to The
Courier.

Too Many Importers

"It was the unanimous opinion of
those attending the Conference from
all sections of the Empire, that there
are too many in the importing busi-
ness," declared Mr. Hembling, "and
they are seeking ways and means of
curbing the activities of the importers
by means of licensing."

"Too much competition between the
importers had a detrimental effect on
the whole deal last year, he found."

It has been ascertained from word
received here from the Old Country
since issuing of the export prices in
the Okanagan that they have been
underquoted, and they are low enough
now, said Mr. Hembling.

"Until we amalgamate our forces
here to a greater extent we will lose
money on the export as well as the
domestic market," he continued.

Speaking of crop conditions in East-
ern Canada, Mr. Hembling stated that
general crops were good in the Maritimes
and eastern parts of Ontario and
Quebec. The McIntosh apple crop,
in Quebec is less than 50 per cent. of
the normal crop, however, while the
apple crop in Ontario has also suf-
fered considerably from drought.

Drought Effects Felt

In Western Ontario and the Niagara
Peninsula the drought effects are ev-
erywhere, and there is no touch of
green to be seen anywhere. When
driving through the United States,
the eastern portion, around Wisconsin
and Michigan, conditions were fair, he
said, but corn and root crops every-
where were affected.

North Dakota and Montana are no-
thing but deserts, at least on the route
he took, highway number 2. "I never
saw such desolation," he said.

Potato crops are very poor all the
way through, and many fields will not
even produce seed. Potatoes in B. C.
should get a good price this year, he
predicted.

Going back to Nova Scotia for some
discussion, Mr. Hembling stated that
that province had not had an apple
crop for 40 years to compare with the
1935 yield. Large proportions of high
quality apples were produced under
ideal growing conditions, and that is
the reason Nova Scotia commanded
such a high position in the export
deal last year.

Had Fine Production

Nova Scotia apples brought good
prices, considering transportation costs
are 54 cents per barrel against B. C.'s
80 to 85 cents per box and the lower
production costs in that province,
which does not have to pay irrigation
tolls.

Many Nova Scotia growers who had
been in debt to their shippers for the
past ten to fifteen years were able to
clean up their deficits.

But this year there will be a far
greater volume of low grade apples,
and with the restrictions on the ex-
port market, these will find their way
on to the Eastern Canada markets
with a decidedly adverse effect on the
B. C. produce, he warned.

In conclusion, Mr. Hembling re-
marked on the tremendous growth in
London. The building carried on there
is phenomenal, he claimed, and is hard
to describe. Acres of houses are be-
ing built on better housing plans spon-
sored by syndicates.

One other fact struck home forcibly
about London, and that was the con-
trol of transportation. Throughout
the whole London area, and for thirty
miles beyond, all taxi cabs, buses,
trams and trains are controlled by one
company, the London Transport Co.
Revenues of this company are pooled
and there is no price-cutting.

This fact should stand out as an
object lesson to the fruit grower in
British Columbia, he considered.

PEACH DEAL WILL
BE THROWN INTO
CHAOS UNLESS

(Continued from Page 1)

in times of surplus.
Mr. R. B. Staples, Sales Service
President, states that the first car of
cantaloupes shipped to the Eastern
Canada market met with a good re-
ception on a quality standpoint, and
the eastern buyers were greatly pleas-
ed with the standard of the fruit.
However, the returns were not so re-
munerative. In order to relieve con-
gestion in ordinary channels, shippers
were forced to send this car to the
eastern market.

Semi-Ripe Deal Satisfactory
"Shippers deserve credit for their
efforts to obtain remunerative prices
on semi-ripe tomatoes," was Mr. Stap-
les' declaration. He claims that the
semi-ripe prices, taken right through
until the first week in August when
the control was lifted, held up as well
as was ever done.

Plums are moving well, with prices
quoted of \$1 for No. 1s and 70c for
suitcases.

Duchess apples are cleaning up nicely,
as one of the best early apple deals
in the history of the industry draws
to a close, according to Mr. Staples.

Hold Wealthies For Time
It is hoped that the Wealthies can
be held back until about August 25th,
when they will be in better condition
and the balance of the Duchess will
be off the market.

There is said to be the usual drive
in the Kamloops area for an earlier
release on Wealthies. Wealthy release
will be regulated under Fruit Act re-
quirements, it is stated.

SOCIAL
HAPPENINGSPlease phone any social items to
467-14.

Mr. Frank Patch, of Vancouver, is
spending a week in town as a guest
at the home of Mr. and Mrs. E. R.
Bailey.

Major and Mrs. Gus Lyons, were
visitors in town over the Regatta.
They returned home to Vancouver on
Saturday, taking Mr. Holland Burke
with them.

Miss Joan Cushing, Mr. Gordon
Finch, and Mr. A. J. Jones returned
to Kelowna on Monday after spending
the week-end at the Chelan Regatta.

On Sunday evening a large group
of friends gathered at a beach party
at the home of Dr. and Mrs. Carol
Tucker to bid them farewell. Dr.
Tucker is leaving soon for Indian-
apolis and later plans to resume prac-
tice in the United States.

Mr. T. R. Hall returned on Saturday
morning from Victoria where he has
been on the staff of the Provincial
Summer School for teachers.

Mr. and Mrs. Fleming, of Vancou-
ver, are the guests of their daughter,
Mrs. Milton Thorpe.

Miss Marguerite McAllister, of Van-
couver, is visiting for a week at the
home of Mr. and Mrs. Ross McAllister.

Miss Florence McKinnon entertain-
ed at tea on Monday afternoon at the
Royal Anne Hotel.

Mr. W. S. Dawson left Sunday for
Vancouver, where he will spend a
fortnight.

Mr. Toby Hodgins and Mr. Bill
Guerard left by car on Sunday for
the Coast, where they will spend a
couple of weeks holiday.

Miss Marjorie Waites, Miss Ann
Curtis and Miss Mary Little returned
this week from a three weeks vacation
spent in Honolulu.

Mrs. Ewart Morgan and three daugh-
ters, of Winnipeg, were week-end
visitors at the home of Mrs. Morgan's
brother, Rev. Dr. Switzer.

Mrs. B. Lewis entertained friends at
the tea hour at the Willow Lodge on
Saturday.

Mr. Gordon Lewers left Kelowna
Tuesday morning with Mr. and Mrs.
Ross Shoaf. Mr. Lewers plans to re-
turn to Vancouver while Mr. and
Mrs. Shoaf will spend some time at
Harrison.

Miss Eve Moore left Friday evening
for Vancouver, where she will attend
the marriage of her sister.

Miss Norma Disney, who was the
guest of Miss Florence McCarthy for
a week, left Tuesday for her home in
Revelstoke.

Mr. and Mrs. H. E. Patterson and
family, of Calgary, are visiting for
a few days in town. When they leave
on Monday they will take Mr. Pat-
terson's sister, Miss Lily Patterson, for
a short holiday.

Miss Ruth Sexsmith, Mrs. Stan
Burch, and Mrs. Donald Loane left
on Saturday to spend a week at Mr.
Sexsmith's cabins at Dee Lake.

Friends will be glad to know that
Captain Hayman has so far recovered
as to be visiting in Naramata.

SUCCESSFUL DANCE
HELD BY PEACHLAND
BASEBALL CLUBSummerland And Westbank
Friends Co-operate By At-
tendance At Event

The Baseball Club had a most suc-
cessful dance on Friday evening,
when Summerland and Westbank
friends joined in dancing to the music
of the Summerland orchestra. The use
of the Athletic Hall was given to the
Club in return for the services of the
baseball team, who played on May
25th for the Athletic Association,
sports day.

Mr. C. C. Inglis left last Monday for
a holiday trip to Coast points.

Mr. A. Miller was a visitor in Kel-
owna last week.

Mr. and Mrs. G. Long and daughters
arrived home on Wednesday after a
trip to Vancouver, where they spent
two weeks.

Mrs. P. N. Dorland left on Satur-
day evening for Penticton, where she
is a guest at the home of her brother,
Mr. R. J. McDougall.

Mr. and Mrs. A. McKay and daughter
Sheila returned home on Saturday
after a holiday trip to Vancouver and
Vancouver Island.

JUNIOR TENNIS
HERE NEXT WEEK

Next Monday and Tuesday, August
17th and 18th, the courts of the Kel-
owna Lawn Tennis Club will be the
scene of the first Interior Junior Ten-
nis Tournament ever to be staged in
the hinterland.

Entries from Vernon and Kelowna
top the lists at the present time, with
six boys coming from the northern
city. It is expected the entry list will
be greatly augmented before the end
of the week.

ARRANGE PLANS FOR
ENTERTAINMENT OF
BRITISH TOURISTSThirty-five Visitors Will Arrive
In Kelowna At Noon On
Thursday, Aug. 20th

Thirty-five representative citizens
from the British Isles will arrive in
Kelowna on Thursday, August 20th,
on a C.P.R. Inspectional Tour party
and will be entertained by the Kel-
owna Board of Trade, it was learned
at the Board's executive meeting on
Tuesday last week.

This party will arrive early in the
morning at Penticton, will be shown
around that district, and will then be
driven to Kelowna. A luncheon has
been arranged for the Royal Anne
Hotel, following which the visitors
will be shown around the Kelowna
area, with tea and dinner being pro-
vided by the Board at a later time.

Invite Valley Boards

Twelve Penticton and Summerland
Board of Trade members will be in-
vited to attend the functions in Kel-
owna, as the plan is to have a Valley
gathering for the British visitors. A
similar number will be sought from
the Vernon Board, as well as some
six members of the Salmon Arm
Board of Trade, Col. E. Poole, of Arm-
strong, will receive a special invita-
tion as well as Mr. C. E. Richards,
of Enderby.

In the evening the Britishers will
be driven back to Penticton, from
which point they will proceed on
their journey east.
Mr. W. A. McAdam, Agent General
for B. C. in London, has written the
Kelowna Board of Trade expressing
his appreciation for the manner in
which it fell in with his ideas, and in
helping to make the tour a success.

Members Of Party

Members of the party include re-
presentatives of the timber industry
in the Old Country.

Following is the personnel of the
trip:

Mrs. B. S. E. Baldwin, Southampton;
Dr. Bertram Watson, London; Miss A.
A. Breakenridge, Glasgow; Mr. and
Mrs. Brierley, Chislehurst, Kent; Mr.
and Mrs. L. Snape Brown, London;
Miss Hyndman, London; Miss H. Ed-
meston, Miss J. Robinson, Miss P.
Robinson, Colwyn Bay; Mr. F. A. En-
ders, Rayleigh, Sussex; Mr. and Mrs.
Gabriel, London; Miss Gibbons, South
Africa; Mr. and Mrs. Hawkins, Bour-
nemouth; Miss M. Holden, London;
Miss Hunt, Altrincham, Cheshire; Mr.
E. D. Ling, Mr. E. W. Tilley, Dorches-
ter; Miss L. A. Lowe, Miss M. E. Mac-
kenzie, Miss Ritchie, London; Mr. D.
R. McNeill, Belfast; Mr. and Mrs. J.
W. Richards, Miss H. Richards, Miss
D. Richards, Tipton, Staffs; Mr. F.
Mills-Shelley, London; Mr. and Mrs.
Melliar-Smith, Reigate and London;
Mr. H. F. Wreidt, Waltham Cross,
Herts; Mr. R. M. Ferguson, Alton,
Hants.

Timber Delegation:

Mr. E. H. B. Boulton, Director, Tim-
ber Development Assn.; Mr. H. S.
Buckland, Messrs. Lamb Bros. Ltd.,
Liverpool; Mrs. Hemingway, Manager
of Seantlebury & Hemingway, Lon-
don; Mr. H. Lees, Managing Director,
Lamb Bros. Ltd., Liverpool; Mr. A.
McVey, General Secretary, Timber
Trades Federation of the U.K.; Mr. E.
B. Monkhouse, President, Timber

WESTBANK MAN
BADLY INJURED
AT PENTICTONJohn Brown Sustains Fractured
Skull Through Breakage Of
Chain On Truck

WESTBANK, Aug. 13. Mr. John
Brown had a nasty accident at Pen-
tiction on Tuesday morning, when a
chain broke on his logging truck and
struck him on the head, causing a
fracture three inches long in his skull.
News of him from Penticton Hospital,
however, is satisfactory.

Mrs. T. B. Reece has made satisfac-
tory progress and is recovering in
Kelowna Hospital from her severe
cold.

SPECIAL CONTEST
FOR EXHIBITIONWill Pick Sample Apple Packs at
Random for Fall Fair at
Armstrong

This week Mr. Mat Hassen, Man-
ager-Secretary of the Interior Provin-
cial Exhibition, to be held at Arm-
strong from September 14th to 17th, is
sending out circular letters to all fruit
packing houses informing them of the
details of a special competition for
McIntosh and Wealthy apples.

Between September 7th and 12th, a
representative of the Horticultural
Branch of the Fair Association will
call on the various packing houses
and will pick at random a box of
McIntosh, Fancy Grade, size 113, 125
or 138, or a box of Wealthy, Fancy
Grade, size 100, 113, or 125, from the
ordinary commercial packs.

These boxes will be entered in Clas-
ses 65 and 66, Division 9, of the Prize
Lists which are now being distributed.
This feature of the apple displays is
expected to create considerable in-
terest among the various packing
houses, and will be of special interest
to visitors, it is anticipated.

Trades Federation; Mr. R. Douglas
Roe, British Columbia Timber Com-
missioner; Mr. J. W. Taylor, Page &
Taylor, Preston, Lancs.

"Where Cash Beats Credit"

Local And Personal

Mrs. Kathleen Abbott, of Armstrong, was a visitor to Kelowna last week, leaving Monday for her home.

Mr. and Mrs. Len Barker, of Vernon, were weekend visitors at the Willow Inn.

Mr. A. M. Lawson, relief administrator in the Kelowna area, left on Monday for Prince George, where he has been transferred for three months.

Mr. and Mrs. V. H. Wilson, of Koksilah, Vancouver Island, are visiting their son, Mr. George Wilson, of the Couriers staff.

Mr. Warren Gayton, former member of the Kelowna Basketball Club, was a visitor to Kelowna from his home at Powell River last week. He accompanied Mr. Bill Day to the Coast on Monday.

Mr. and Mrs. Jim Smith, of Carbon, Alta., daughter and son-in-law of Mr. and Mrs. John E. James, and Mr. Selma, of the staff of the Bank of Montreal, Cardston, Alta., who have been visiting Mr. and Mrs. James, left today for Portland.

Mr. and Mrs. W. M. Mowatt, and Mr. and Mrs. A. L. Wright, of Vancouver, are spending two weeks at the Eldorado Arms. Mr. Mowatt is General Manager of the Toronto General Trust, while Mr. Wright is Provincial Manager of the Sun Life Assurance Co.

Bob Clifford, aged 12, who was reported as missing on Wednesday evening, was found at Okanagan Centre with a group of pickers this morning. He stated that he climbed a freight on Wednesday and got off at Winfield. Searchers vainly sought the missing lad for a considerable time Wednesday night.

Among recent guests at the Willow Inn were: Mr. G. A. Lattier and family, Edmonton; Mr. J. J. Dods, North Vancouver; Mrs. E. J. Hacking, Salmon Arm; Mr. and Mrs. George C. Egg, Grand Forks; Mr. and Mrs. C. Lightheart, Vancouver; Mrs. M. Smith, Calgary; Mr. Robert Moody and Miss Ruth Moody, Everett, Wash.; Mr. and Mrs. P. A. Newell, Trail; Mrs. Howard Smythe, Vancouver.

Fourteen Gyros and Gyrettes motored to Pentiction on Tuesday evening to attend the installation ceremonies of the Pentiction Gyro Club. Past District Governor Reg. Rutherford of Kelowna, was installing officer, when Clem Battye took over the office of President from Alex Tough, Chas. Gaddes, President of the Kelowna Gyros, also participated in the gathering.

Among the recent guests at the Royal Anne Hotel were: A. P. Bennett, Vancouver; W. G. O'Neill, Stump Lake; Mr. and Mrs. A. J. Smith, Boulder; Dr. McNamee, Kamloops; Major E. E. Huton, Summerland; S. A. Larson, Osoyoos; Mr. and Mrs. R. E. Ison, Vancouver; A. M. Inch, Vancouver; Misses Mary Scott and Evelyn Kidd, Vancouver; Dr. and Mrs. G. F. Annyott, Vancouver; Mr. and Mrs. Drysdale, Edmonton; W. G. Quick, Winnipeg; Messrs. H. P. Estlin, W. J. West, O. Leitch, J. R. Knight, Vancouver; F. F. Tate, San Francisco; Judge Swanson, Kamloops; F. W. Taylor, Wenatchee; T. S. Harrison, Victoria; Mr. and Mrs. C. E. Blackwell, Okanagan, Wash.; H. J. Moynham, Portland; F. W. Mathews, and Misses A. and M. Mathews, Vancouver.

Mr. and Mrs. J. Horn and family have returned from England and have taken up residence at Okanagan Mission.

John Casorso was fined \$10 by Magistrate J. P. Burnie in Police Court this morning on a charge of speeding with his motorcycle.

Mr. H. G. M. Gardner has been appointed referee of the Southern Interior Tennis Tournament being staged in Pentiction from today until Saturday.

Mr. Sydney G. Old of the B. C. Telephone Co., Vancouver, returned on Friday last to his home after visiting his father, Mr. Sidney H. Old, at Kelowna.

Mr. and Mrs. S. B. Fleming of Vancouver have been visiting their son-in-law and daughter, Dr. and Mrs. M. P. Thorpe in Kelowna for the past week. They left on Wednesday on their return trip.

Cars driven by Messrs. William McTavish, of Kelowna, and John S. Bean, of East Kelowna, collided on the K.L.O. road on August 7th, at 5:30 p.m. Both cars were badly damaged, but no court action has arisen. None of the occupants was injured.

Included among the guests at the Mayfair Hotel for the past week were: W. J. Magee, Jr., Seattle; A. J. Miller, Peachland; C. A. Caplin, Vancouver; Dr. J. Allen Harris, West Summerland; Mr. and Mrs. Tom Douglas, Kamloops; Hubert Smith and B. A. Lyne, Powell River; J. H. Russell, Kamloops; R. Pearson, Calgary; A. Green and family, Taber, Alta.; Bruce McKay, Seattle; Mr. and Mrs. B. A. Heaney, Hedley; E. Beatty, Chase; R. Holliston and family, Pentiction; Mr. and Mrs. W. J. Armstrong and Allan and Mary, Prince George; Fay Armstrong, Armstrong; Charlotte Acres, Vancouver; Audrey Forester, Vancouver; Ronald Stewart, Vancouver; J. Tudor, Victoria; Mr. and Mrs. H. Joyce, J. Locke and Chas. Jones, Quesnel; W. E. Boy, Outlook, Sask.

Alleged Financier Of Spanish Revolt
Juan March, called the world's wealthiest Spaniard, is suspected by radical Spanish leaders of financing the Fascist revolt. March, who once wielded enough influence to unseat governments and to control elections, according to reports, was in Biarritz, France, when the present upheaval began.

SEEKS CUSTODY OF CHILD

Dr. Franklin Thorpe, divorced husband of Mary Astor, film star, is seeking through the courts the custody of their four-year-old daughter, Marylyn, charging that the actress is leading an immoral life.

MARRIAGE

Pitt-Dee

The wedding was solemnized at St. Mary's Church, Oak Bay, Victoria, on Saturday, August 8th, at 2 o'clock, of Isabel M., daughter of Mr. and Mrs. William Dee, 1164 Talmie Avenue, and Mr. Cyril Thomas Pitt, only son of Mr. and Mrs. Thomas Pitt, of Duncan, Rev. H. S. Payne officiating. The bride was given in marriage by her father. The bride's only attendant was her twin sister, Mrs. W. J. Logie, of Kelowna. The groom was supported by Mr. A. E. Robinson, of Duncan.

The bride was attired in white lace, fashioned on classic lines with a hand-embroidered veil with Juliet cap, belonging to her sister-in-law, Mrs. H. D. Dee. She carried a mixed Colonial bouquet. The matron of honour wore a navy blue taffeta gown with a tailored jacket and a peach mohair hat and also carried a Colonial bouquet.

The church was decorated with zinnias, gladioli and large white Chinese lily poppies.

The reception was held at the home of Mr. and Mrs. H. A. Beckwith, 1149 Oliver Street. The reception rooms were beautifully decorated with sweet peas, given for the occasion by Crossland Brothers. Receiving with the bride and groom were Mrs. William Dee, Mrs. Thomas Pitt and Mrs. H. A. Beckwith. Mrs. Dee wore jade green chiffon with a nigger-brown crepe hat, while Mrs. Pitt was attired in a green flat crepe gown with contrasting accessories. Mrs. H. A. Beckwith wore flowered chiffon and matching accessories.

Among the out-of-town guests were Mr. W. S. Dee, of Salmon Arm; Mr. and Mrs. W. J. Logie, of Kelowna; Mr. and Mrs. Archie Sherman, of Cowichan Bay; Mr. and Mrs. T. Pitt, Duncan; Mr. and Mrs. C. Pitt, Duncan; Mr. and Mrs. A. E. Robinson, Duncan; Mr. and Mrs. R. Lendrum, Duncan; the Misses Robertson, Duncan; Mr. and Mrs. C. J. Fredericksen, Kelowna.

The bride's going away costume was a long, white tailored flat crepe dress, trimmed with bright brown, a Cumberland tweed coat with Astrakhan collar, a yellow felt hat and brown accessories.

The couple, after a cruise of the Gulf Islands, will make their home in Duncan. Those assisting at the reception were Mrs. A. E. Robinson, Misses Ella Creighton, Kitty Graham, Isabel Marlon and Jean Beckwith.

U.S. APPLES OPEN AT HIGHER PRICES

Canadians Encouraged As Americans Quote Initial Prices With Raise Of Fifty Cents

Latest word from across the line is that opening prices on fall varieties of apples were 50 cents per box higher than the initial prices of 1935.

This is a favourable factor which will bring joy to the hearts of the Canadian producer, as it means that prices on this side of the line should be accordingly higher.

The United States crop is decidedly smaller than last year, so that the American shipper feels that, despite the drought areas, which are the cause of much worse off than the Canadian stricken sections, good prices can be obtained this season.

GARDEN SLUGS CAN BE CONTROLLED

Dusting With Hydrated Lime In Evening Is Effective

Garden slugs are frequently numerous on heavy land, where they do considerable damage to beans, lettuce, cabbages, cauliflowers, and other crops. Like other pests, the slugs can more easily be controlled if immediate attention is given before they increase in numbers. Infested plants and slugs should be dusted with hydrated lime in the evening after the sun has gone down and feeding has commenced. Care should be taken to cover the upper and the lower surfaces of the leaves and the soil immediately surrounding the plants.

Hydrated lime is effective only when in the form of a light dry powder. It becomes hard when subjected to moisture, and in that condition it is not injurious to slugs. For this reason, a few light applications of lime at intervals of three or four days are much more effective than one heavy dose.

Another method of control frequently recommended is to spray the infested plants thoroughly with Bordeaux mixture. This material is repellent to slugs, and, if the foliage of the plants is completely covered, many of the slugs will confine their attentions to weeds growing in adjacent fields.

TEN CHANGES MADE IN TEACHING STAFF OF LOCAL SCHOOLS

Junior High Has Six New Teachers, School Board Monthly Meeting Is Told

Ten changes in the Junior High and Elementary schools' teaching staffs were announced at the monthly School Board meeting held on Wednesday evening.

Mr. L. B. Sibbs is taking over the principalship of the Junior High, Mr. F. T. Marriages of the Elementary following the recent move of Mr. C. J. Fredericksen to Powell River.

In the Junior High there are to be six new teachers including Eldred K. Evans of Ellison; Norma M. Shroeder, Victoria; Alice B. D. Parker, Vancouver; G. Sanford Austin, Kamloops; and Fred Hadfield, Vancouver, new manual training teacher.

Mrs. Lawson's Post Filled

W. H. Gaddes, of Vancouver, has been accepted on the Elementary staff, while Georgina Meehan of New Westminster will follow the accident to Mrs. Lawson at New Westminster. It was reported that Mrs. Lawson will not be able to assume her duties here for at least six months, if at all during the coming school year.

A programme of weed killing has been carried on at the Senior High grounds this summer, and has been quite effective. The rest of the grounds will also be treated, it was reported.

Painting Contract Let

Tenders for painting were discussed by the Board and Mr. T. Treadgold was awarded the contract at a price of \$244.55. The other tender was submitted by C. E. Pettigrew at \$249.

Mr. Treadgold's tender had included cornice work while the Pettigrew tender specified that no cornice work would be included. As the tender forms had not asked for any cornice work, the Board will not have this painting done.

Sander Worked For A Time

The sander recently purchased from an eastern American firm worked splendidly for a time, but the Board learned that until the armature burned out. However, the motor was repaired and, although the machine is inclined to become overheated, it is doing splendid work.

The School Board was reminded that the annual convention of the B. C. School Trustees Association will be held from September 21 to 23 at Pentiction. Chairman Dave Chapman expressed the hope that all the Trustees would be in attendance, and also stated that there would be considerable discussion on school buildings, and an architect would be present from Vancouver.

PROTECTION SOUGHT FOR B.C. PEACH CROP

B. C. F. G. A. Tariff Committee Wires Request To Ottawa For Dump Duty

VERNON, Aug. 10.—An application for establishment of a dump duty on peaches has gone forward to Ottawa through the medium of a telegram over the signature of F. A. Lewis, chairman of the Tariff Committee of the B.C.F.G.A.

This application was sent to L. F. Burrows, Secretary of the Canadian Horticultural Council, who replied that he was taking up the matter with the Fruit Branch and hoped for favourable action in the near future.

In the application, attention was drawn to the fact that large quantities of peaches already have been imported. The Okanagan expects to have available considerable supplies by next week, hence the establishment of values at once was asked. While last year the Okanagan crop had protection to the extent of 20 per cent or 1 1/2 cents per pound, this year the protection stands at only 15 per cent ad valorem.

Washington peach estimates are up by half a million over 1935, or approximately 500 cars. U.S. quotations are now 50c f.o.b., which is much lower than last year.

The request to Ottawa also contained the information that the B.C. crop estimate is eight per cent below the production of last season.

CANADA CHIEF SOURCE OF CARBON BLACK FOR EMPIRE

Principal Use For Material Is In Printers' Ink And Rubber Industry

Canada is the chief producer of carbon black in the British Empire and most of the carbon mentioned in statistics as originating in Empire countries is in fact from Canada. The carbon is used for many purposes but principally in the printers' ink trade and the rubber industry. Printers' ink of other days, in common with many other important articles of commerce, was originally an agricultural product. The inks of the very early ages were prepared from charcoal or varnish, which after the style of the ordinary black printing ink of today, the principal constituents of which are lamp-black and thick linseed oil.

The Chinese ascribe the invention of ink to Tien Tcheu, who lived between 2697 B.C. and 2597 B.C., and it is known that the ancient Egyptians prepared and used inks at a very early date. An Egyptian document—a papyrus—with written characters of the date 2500 B.C. is still in existence. Two thousand years later the emperors of Greece, and of Rome were wont to sign their decrees with a flourish in purple ink. Since these days the numbers and kinds of ink have been many, and today some of the finest inks in the world are manufactured in Canada.

ANNOUNCEMENTS

Three cents per word, each insertion minimum charge, 30 cents. Each initial and group of not more than five figures counts as a word. Black face type, like this, five cents per word; minimum charge, 50 cents.

Dr. Mathison, dentist, Willis Block, telephone 89.

The Anglican Church Bazaar will be held on November 6th and 7th. Watch for further announcements.

KELOWNA BOYS' BAND

Members of the Band and boys interested in the coming season's work, please call and see Bandmaster at Casorso Building.

ENGAGEMENT

Mr. and Mrs. L. G. Caffee, of Pentiction, announce the engagement of their eldest daughter, Violet Ellen, to Mr. James S. Treadgold, son of Mr. and Mrs. A. T. Treadgold, of Kelowna. The wedding will take place at the United Church, Pentiction, on Tuesday, September 8th, at 7:00 p.m.

SUN LIFE MEN TO HOLD CONVENTION

(Continued from Page 1)

timed the Vancouver man, "Mr. Wood also intimates that, as a result of increased income from investments, dividends to policy holders will undoubtedly be increased."

The B. C. Branch in 1935 led the entire Canadian department in production of new business and also in the number of representatives who qualified for Macaulay Club membership and invitations to the agency gathering at St. Andrews-by-the-Sea, proudly explained Mr. Wright.

Five In This Territory

There were five of these representatives who qualified in Mr. Fairbairn's territory, it was explained, and these qualified for both the Club and the trip.

Those who are expected to attend the convention this week include: G. G. Cumming, Trail; J. R. Fleming, Nelson; Tom Daly, Pentiction; L. F. Costerton, Vernon; A. A. Reid and R. H. Carson, M.L.A., Kamloops; Red Dorrell, Bridge River; L. W. Saxton, Quesnel; C. E. C. Haggitt, Revelstoke; S. R. Davis and J. E. Reekie, Kelowna.

The Misses Lyla Brown, Gladys Johnstone and Beryl Ferguson, A.T.C. M. L.A.B. musicians, of Winnipeg, have been spending a few days with Mrs. J. H. Riches at the home of Mr. and Mrs. J. F. Fumerton, Vimy Avenue.

ROTARY MEETINGS PEACE INFLUENCE

VERNON, Aug. 13.—The influence for world peace given by the attendance of thousands of men from all parts of the world is one of the best features of Rotary International conventions. Dr. S. G. Baldwin reported to members of the Rotary Club of Vernon at the weekly luncheon meeting in the National Hotel on Monday.

As official delegate from the local club to the recent convention, held last June in Atlantic City, Dr. Baldwin gave highlights on the convention in a most interesting fashion, and in addition he spoke shortly of the world famous Mayo Brothers clinic at Rochester, Minn., where he spent a week.

RUTLAND

Holy Communion will be celebrated at St. Aidan's Church on Sunday next, at 9:45 a.m.

Miss Agnes Rae is an inmate of the Kelowna Hospital following an unfortunate accident, when she broke her left arm in a fall at her home last week. Miss Laura Granger is also a patient at the hospital, where she underwent a minor operation. Alma Gray returned home on Saturday after two weeks in hospital with ear abscesses.

Mr. and Mrs. F. L. Irwin and family are visiting relatives at Nelson, B.C., travelling there by car. They expect to be away about two weeks or more. During their absence the residence is being re-painted.

Mr. and Mrs. E. Kelly and their two small daughters are visitors at the home of Mr. and Mrs. L. M. Wanless. They drove by car from their home in Edmonton, and report road conditions very bad both in B.C. and Alberta, due to the long dry spell. Mr. Kelly is an employee of the Alberta Government and Mrs. Kelly will be best remembered to Rutland people by her maiden name, Miss Merriam Woolsey, having been resident here for a number of years.

Church services will be resumed at the United Church on Sunday evening next.

NO LACK OF WATER FOR IRRIGATION

But Prolonged Hot Weather
Spell Taxes Distribution
Systems To Limit

(From the fortnightly report of the Horticultural Branch, Provincial Department of Agriculture, Vernon.)
Vernon, B.C., Aug. 8, 1936.
Salmon Arm, Sorrento And Main Line Points

As reported Aug. 5th: The weather has continued hot and dry since July 12th, with practically no rain, and on light soils where irrigation is not available crops are showing signs of suffering. On the heavier soils crops are generally holding up well, and given rain within a reasonable time, good yields are assured.

The raspberry crop was light and is just about over. Loganberries are coming in fairly well but continued hot weather will further curtail an already short crop.

Apples are sizing fairly well and Yellow Transparent and Duchess are about cleaned up in the Salmon Arm district. Translucent crabs are beginning to move. Wealthies should be ready in about two weeks at Kamloops and three at Salmon Arm. The apple crop generally is fairly clean and there is little chance of severe Scab infection taking place between now and picking time. Peach plums are now ready, but very few plums of any variety are moving as yet.

A full line of vegetables is moving from Thompson Valley points. Canaries at Ashcroft and Kamloops will commence operations on tomatoes within a few days.

Weather conditions are ideal for harvesting second crop alfalfa, etc. and grain crops generally look very promising. Most of the pea acreage in the Salmon Arm district is being harvested, and yields generally appear to be satisfactory. There is good prospect for extensive development of this crop in the Salmon Arm and adjacent district.

Armstrong, Vernon, Okanagan Centre, Winfield

As reported Aug. 6th: Weather conditions since our last report have continued very hot and dry. Evaporation of soil moisture has been extremely heavy, creating quite a problem to the orchardist and vegetable grower to get around the crops frequently enough with irrigation to maintain a reasonable moisture condition in the soil. There appears to be ample water supplies in the reservoirs, but the distribution systems are taxed to the limit. Cool nights have been a blessing over this period. Although there is a check in the sizing of fruit, there so far has been no set-back, and orchard crops in general look quite good as far as size and cleanliness is concerned. There is, in evidence considerable sunburn of apples, although the injury is not severe.

Duchess apples are now at the maturity stage for picking, and the Wealthy crop will be on an early date. The light Peach plum crop is now moving to the packing houses, and in the northern end of the Valley there will be a lull in the stone fruits until prunes are ready. With the exception of blackberries, the small fruit harvest is a thing of the past. The raspberry crop tailed off rapidly and, owing to the extreme heat, has run below estimates.

In general orchard pests there is little at present to cause the grower much concern. The heavy flight of second brood Codling Moth is occurring and spraying for the control of this pest should be general.

In vegetable crops the various kinds are maturing rapidly, and the onion crop is also approaching maturity in the earlier spot. There will be a start made of the onion seed harvest in about a week's time. The movement of semi-ripe tomatoes is very heavy.

The weather has been ideal for the harvesting of the grain crop, and cutting and threshing are going ahead rapidly throughout the district. Excellent crops of high quality second cutting alfalfa are now going into the stacks. The extreme heat has been a little hard on pastures and ranges the past three weeks where irrigation is not available.

Kelowna

As reported Aug. 6th: The weather continues hot and dry.

Raspberries are about finished. Redness and Red Astrachan apples are moving as mature fruit. Peach plums are nearly over. Other early plums are available and Bradshaws are just starting.

Semi-ripe tomatoes are available, but the deal is unsatisfactory and some growers refuse to pick. Canning of ripe tomatoes has commenced and canneries will be running continuously in a few days. Onions and silver-skins are being shipped and good quality mountain lettuce is moving.

Westbank, Peachland, Summerland, Naramata

As reported Aug. 5th: Weather conditions still continue very hot and dry. The long spell of high temperatures is telling in orchards with the lighter soils, although the irrigation supply is not yet curtailed.

Packing houses are not busy at present owing to the lack of apricots. Apples and pears are sizing well. The extreme heat is causing some sunburn in some varieties of apples. The first codling moth spray finished for second brood control. Orchards at present are freer from this pest than at this time last year. Pests on the whole are not bad, although the Fall Webworm is quite prevalent in some sections. Woolly Aphis is now beginning to show in odd spots. A few plums and Triumph peaches are moving. Transparents are over and Duchesses will be ready in another week. Crab-apple picking will commence this week where they have size and colour.

Tomatoes, cucumbers and a few cantaloupes are moving.

NO "FIREWORKS" AT U.B.C.M. CONVENTION

Offer Turned Down Of Toronto
Firm To Supply Display
Next Month

VERNON, Aug. 13.—When delegates to the annual convention of the Union of B.C. Municipalities met here towards the end of next September, there will be no fireworks for their benefit.

Such was the decision of the Vernon City Council when, at its Monday evening meeting, it turned its attention to a letter forwarded from a Toronto firm, which sought the right to provide whatever fireworks might be necessary for the occasion.

"I've had a letter almost every week from this firm," explained Mayor Prowse, "and I'd like the Council to pass a resolution definitely ending the matter."

The Council therefore went on record as desiring that there would be no fireworks in the ordinary sense when the municipal delegates meet here, though it was pointed out that the convention discussions may not lack "fireworks" in a different sense, as knotty problems are untangled.

Koolenay And Arrow Lakes

As reported Aug. 4th: The weather has continued very warm and dry since the last report. This spell of extreme heat has now lasted over a period of four weeks and at the present time there is no indication of any change in weather conditions. Rain is badly needed, but will be too late for some crops. Irrigation water is getting low in some sections but crops have not suffered to any great extent where irrigation is available.

The small fruit crops are now just about over. The blackberry crop is about the only crop being harvested at the present time.

The cherry crop is over and a much larger crop was shipped from the district than was expected. The Lambert variety was a very heavy crop and most of the fruit was of excellent quality. Early apples are on the market and Peach plums are coming on fast and will be ready to move within a few days from early sections of the district. Apples have not sized any too well for this time of year and there is quite a lot of sunburn injury in many orchards. Orchard pests on the whole are well under control where spraying has been thoroughly carried out. Codling Moth is quite bad in some sections and weather conditions have been very good during the past two or three weeks for a heavy infestation of the second brood.

All vegetables are in heavy supply, and a few local grown tomatoes are now on the market.

Grand Forks

As reported Aug. 4th: Weather conditions have continued hot and dry, and most crops have suffered somewhat from the excessive dryness of the past three weeks.

The apple crop is sizing and colouring well. Several orchards in the east end of the valley will have only half damaged fruit this season. Fire Blight has spread into orchards not previously affected and effective control measures will have to be adopted later.

Early vegetables are moving out fairly well, and yields are comparatively good. Damage from wireworms has been heavy this year and has especially affected the early potato crop. Late potatoes are doing well, although the tops have been burned on areas not receiving irrigation and the yields will be reduced as a result.

Generally speaking, there is a good crop of second crop alfalfa on all irrigated land and an excellent crop of mixed hay throughout the Boundary districts. Cutting of the second crop alfalfa is under way and a considerable quantity has already been harvested. Cutting of the fall sown cereals is almost complete now and some excellent yields have been noted. Spring sown grains have suffered from the heat and the yields will be reduced considerably. Prospects are good, however, for increased prices for hay and grains, and the net returns will likely be higher than last year to Boundary farmers.

Creston

As reported Aug. 3rd: The weather has been continuously hot for the past two weeks. The only relief has been the last couple of days, when the valley was lightly clouded over; also forest fires in the district are contributing enough smoke to obscure clear vision.

Raspberries are about over, but a few crates are still coming in from the higher elevations. The crop was very light as was expected.

Early Transparent and Duchess apples have been moving steadily, and some Red Astrachan will be ready this week. Possibly next week early plums may be ready, but on the whole the crop is very light. Growers are busy irrigating, encouraging growth as much as possible this time of year to offset the winter injury. A gentle rain is badly needed as all areas have felt the continued heat, but a violent wind storm would cause some loss from windfalls as the fruit now is a fair size but weak at the spur. It will be past the middle of the month before carload shipments of fruit will be resumed. By that time early pears, crabs and Wealthy apples will be about ready to pick.

Cucumbers, peppers and tomatoes are gaining in volume. Prairie conditions are such, however, that the demand is weakening, especially for cucumbers, which has a tendency to lower prices.

The second crop of alfalfa is well under cover, and where irrigated the cut was good. Fall wheat is about ready to combine on the Flats as harvesting is expected to commence this week.

Jimmy:—"So Elsie told you, I was witty, did she?"

Tony:—"Well, she didn't express it exactly that way. She said she had to laugh every time you opened your mouth."

GLENMORE

Miss Yvonne Reed entertained in honour of her cousins, Mrs. Elvyn Wright and Miss L. Reed, at the home of her parents on Wednesday evening last, prior to their departure on Thursday for their homes in Lethbridge, Alberta.

Mr. M. Griffin and son Vincent returned home the latter part of last week, after a motor trip to Vancouver and Vancouver Island, where Mr. Griffin went to look after property interests.

Miss Peggy Kent, of Lumby, is a guest at the home of Mrs. S. Pearson.

Mrs. G. H. Moubrey, who has been in ill health for several weeks, came home on Monday from Kelowna, where she had been staying with Mrs. Keown. Although much improved, Mrs. Moubrey is still unable to look after her household duties.

Mrs. Patterson, who had been visiting her sister, Mrs. M. D. Wilson, for the past several months, left on Tuesday for her home in Brighton, Sussex, England.

Archie Loudoun, Clarence Hume, Phil Moubrey, Art Reed and Stewart Macrae are camping and fishing for a few days at the Belgo Dam.

Miss Melrose, of Detroit, Mich., left for her home on Saturday, after being the guest of Mr. and Mrs. J. Anderson for two weeks.

Miss Frances Hume arrived home on Saturday after spending a holiday at Naramata.

Mrs. G. W. H. Reed has as her guest for a few days her friends, Miss Glenville, of Grand Forks.

Mr. J. Vint has purchased the fine property near the north end of Glenmore, which has been known as the Grant orchard.

Mr. Hatanaka is home from the

Hospital, where he underwent an operation for appendicitis some weeks ago.

Mrs. Wally Melroy and baby daughter arrived home from the hospital a few days ago. Both are doing nicely.

Mr. and Mrs. E. W. Ferguson left for the Coast on Wednesday, August 5th, to spend a few days. They were accompanied by Miss Hopkin, of Kingston, Ont., who had been their guest at their summer cottage at Manhattan Beach.

Miss Joan Longshaw returned to her home in Vancouver on Saturday, after visiting for several weeks with her friend, Miss Cathie Lambert.

"He is very thoughtful of his wife." "Yes. Last winter he bought coke instead of coal so it wouldn't be so heavy for her to shovel into the furnace."

"I believe I shall have to give up amateur theatricals. They always make me feel I am making a fool of myself."

"I know, everybody feels the same way."

Boarder: "Have my sports flannels come back yet?"

Landlady: "What d'ye mean? I gave them away as you told me to do!"

Boarder: "Gave them away! What-ever for, and to whom?"

Landlady: "To the window cleaner, as you said!"

Boarder: "Oh, my stars! I said—"

"Give them to the One-Day Cleaner!"

A. K. LOYD AND TREE FRUIT BOARD MEMBERS SETTLE DIFFERENCES OF OPINION IN SOUTHERN AREA

Growers Are Now Fairly Well Satisfied That No Discrimination Has Been Made Against Them To Advantage Of Northern Producers

Growers of the general southern Okanagan area, from Summerland south to the border, who attended a meeting held in the Inco Hotel at Penticton on Friday, August 1, were assured by members of the Tree Fruit Board, that in the opinion of the control authorities, no policies have been adopted that discriminate against the southern growers, to the advantage of the northern area.

This meeting, which was well attended, was presided over by A. K. Loyd, President of the B.C.F.G.A. Mr. Loyd was instrumental in arranging the meeting, and, at the outset, he pointed out that it was not to be regarded, in any way, as a "protest" gathering.

Sectional Differences

"This meeting is not for the purpose of airing sores," he declared. "There has been, however, the feeling that some of the regulations of the Tree Fruit Board have not appealed to southern growers, and it is our purpose this evening to clear up such points. At the present time it is vitally important not to let sectional differences creep into our activities as a whole."

Mr. Loyd's remarks set the tone of the meeting. A lengthy period of questioning followed, with Messrs. Haskins and Barrat, of the Tree Fruit Board, as well as George Brown, manager of the Board's cartel, replying to the queries, but the atmosphere was not a heated one.

As point after point was carefully explained by the Board members, any suggestion of dissension seemed to give way to a spirit of interested enquiry as to details of operation. And at the conclusion, the opinion apparently to be gained from the statements made was that control plans have been drafted in such a way as to hold the scales as evenly as possible among the various producing districts.

"Are the times of releases in the cartels prejudicial to the late winter varieties?" This was one of the first questions asked.

The Board does not hold back re-

leases of any varieties for the benefit of others. This was the point-blank statement of George Brown, when he took the floor to discuss this matter. He said that as soon as the trade starts asking for any particular variety, the cartel is opened, providing of course that the fruit involved is mature and fit for shipment.

Even if they did mature earlier there, it was probably a wise action to hold them back from shipment, Mr. Haskins declared. Mr. Barrat also pointed out that there is an annual suggestion in Kamloops that the apples are ready there earlier. "This may or may not be so, according to the season," he explained, "but we think it the better policy not to declare a release date until the trade can be satisfied with the first big shipments."

Immature Fruit Danger

"Just as soon as the Macs are on the markets at all, the trade is clamouring for them," Mr. Haskins added. "If we declared an earlier release date in any particular area, the probability is that the markets would be flooded with immature fruit, in order to cater to the demand. And immature fruit does an untold amount of damage. It teaches your consumer not to like apples."

Mr. Fitzpatrick explained that, if a small amount of Macs were released from any particular section, as soon as they might be ready, it would be impossible to satisfy the demands arising from the jobbers, and a spirit of dissatisfaction would feature the very start of the main apple movement.

"I can't see what is lost by holding back to a release date when all jobbers can get their share, and when the fruit is well matured and attractive," Mr. Haskins summed it up. "If a district is in the cartel it will sell all its fruit anyway, and I don't think the very early movement would realize any greater price than when it does actually move at the start of the main crop sales, with the rest of the districts."

No Short Pools Now

"Is anybody operating such pools now?" asked Mr. Haskins. "That is a vital question. There are no such arrangements now."

Mr. Brown supported the Tree Fruit Board members on the question of the opening date for Macs. "An early small release would mean that you couldn't possibly parcel around supplies amid the trade," he said. "It should be remembered that on the first release as at present, big as it is, no shipper is able to fill all his orders."

H. K. Whimster, of Penticton, also supported this viewpoint. "All the consignees expect to get an even break on the first delivery of McIntosh, and that's the way the deal has to be handled to get best results."

Some brokers, for a long period, have been actually demanding varying release dates for their benefit, the object being to have the Macs appear at all centres across the prairies on the same date. This illustrated, according to Mr. Whimster, the keen demand for handling of Macs at the same time, and the danger that would be involved in sending out small supplies of Macs from any one area, ahead of the general large movement.

Mr. Barrat, in replying to a further question, said that there were roughly five times as many McIntosh in the northern area, as in the south.

Grower Does Not Understand

Some growers apparently take exception to the fact that the opening release on Macs is put at 25 per cent, whereas the corresponding release on Winesaps, for example, is only 5 per cent.

To criticize this is merely to indicate that the grower does not quite understand the cartel operations. Mr. Haskins suggested. The opening release on Macs could be also placed at 5 per cent, but it would be used up so quickly that another 5 per cent would have to be added almost immediately, and so on, till the 25 per cent were reached. And as regards the Winesaps, just as soon as the 5 per cent is filled, another release can be ordered. There is no checking of the movement merely because of the extent of the release.

Another reason for the small release on Winesaps and similar varieties was also given, however. If a 20 per cent release on such a variety were declared at the start, some small shippers could fill their orders immediately, but, in the case of a very large shipper, such as the Associated, it might take a month before such a large percentage of its holdings of Winesaps was sold. This would mean that the smaller shipper would be marking time meanwhile.

"The main idea is to give everybody a chance to keep on doing business," it was stated.

The size of the release of any variety has nothing to do with the size of any other, and there is no intention to discriminate, it was pointed out.

William McConachie asked the proportion of Macs in valley production, and the answer given was that they comprise about half the total crop.

Switch Orders Around

Replying to Mr. King, Mr. Haskins said that distribution is not held up while some shippers wait for others to come up to their full percentage in the cartel release. Orders are given from the shippers, who have reached their totals, to others who have not. "All orders that come in are being filled," commented Mr. Brown.

One point illustrated by Mr. Barrat is that the percentage releases are based on the total holdings of the shippers. This means that a 25 per cent release of Macs really signifies that the shipper is free to market 50 per cent of his domestic sales, since about half the crop goes export. And as regards Jonathans, where 90 per cent go export, a 20 per cent cartel release would really mean that almost any shipper had a 200 per cent release for domestic requirements.

Mr. Fitzpatrick asked if, in any cartel made up of a group of varieties, the price structure did not at times hold up distribution.

This would be possible, Mr. Barrat acknowledged. But there appears to be a standardized relationship, in the

study of the possibility of varying release dates for McIntosh in different areas, depending upon varying maturity. Mr. King, of Naramata, asked if McIntosh were not unfairly held back in Oliver, after they were ready for shipment.

Even if they did mature earlier there, it was probably a wise action to hold them back from shipment, Mr. Haskins declared. Mr. Barrat also pointed out that there is an annual suggestion in Kamloops that the apples are ready there earlier. "This may or may not be so, according to the season," he explained, "but we think it the better policy not to declare a release date until the trade can be satisfied with the first big shipments."

At any time, it should be remembered, the Okanagan apples can get just so much over American supplies. The duty sets the margin. There is also the question of consumer resistance. And such a factor as shippers coming on the markets in the spring may have quite an effect on sales. The volume of oranges, the size of the U. S. crop, these and many other points were explained by the Board as affecting the Okanagan price structure, when questions in that regard were asked.

When J. Shepherd, Summerland, asked if it was not true that shippers try to keep down the prices, so as to stimulate movement, Mr. Barrat said it was the case, sometimes, "but in fairness, I should say by no means always." He said that a price list prepared by the Board and the Shippers' Advisory Council is frequently almost the same. They study the same factors and often reach the same conclusions. There have been times, however, when the Board has induced the shippers to accept higher prices.

Continuing the discussion of prices, Mr. Haskins said that the Macs, face and fill, are being put on the markets just about as cheaply as they can be. "The suggestion is sometimes made that the price of Macs should be maintained so as to stimulate the movement of late winters. But if you tried to sell the Macs at the same price as Newtowns or Winesaps, it would just mean that you wouldn't be selling Macs at all, and we couldn't regard that as a fair policy."

Marketing Practices On Prairies

Discussion continued regarding marketing practices on the prairies. Mr. Barrat said that cars used to be spotted at rural points, but the credit risk has now checked this practice. However, according to Mr. Haskins, a small retailer can still get a car direct from here, through his jobber, if he wants it, and if his credit is good.

The question of "red romes" was raised, and it was stated that, if ample and good reasons are offered, they might be treated somewhat differently in the future. Some growers asked that they be considered a different variety.

It was pointed out, though, that varieties must be grouped in the cartels to a certain extent, or the operations of small shippers would be seriously jeopardized.

C. J. Amm, of Summerland, offered the objection that the Newtown price had been kept too high in relation to other varieties last season.

If this price had been lowered, Mr. Barrat answered, the Mac price would have been still further lowered. The net result, therefore, would have been less for both varieties.

Discussion Of Control Scheme

After the discussion of details of Board policy, the meeting turned its attention to the control scheme now being drafted. It all depends on what support is given by the growers. Mr. Haskins stated. "If the growers don't sign, the shippers never will."

The cartel is to be only one part of the control scheme, Mr. Haskins said, and the need for continuing the Board members, to attend to many duties on behalf of the growers, is now even more urgent than in those seasons when control was maintained with the backing of parliament. "We're going to do more work than ever before," he asserted, and the meeting broke into applause.

It was revealed that 500 forms had been returned by the afternoon, Friday. This, said Mr. Haskins, indicated good support from the growers, as only a few days had elapsed since they were sent out by the Board.

At the conclusion of the meeting Mr. King suggested that the growers were "not going far enough," and Mr. Davenport, asserting that the shippers still dominated everything, laid the blame to the growers' lack of "guts" while suitably apologizing to the ladies present for using "such language."

To this the Board members responded by saying that the present plan is purely a stop-gap arrangement. The next session of parliament may bring legislation that will correct matters. And as for this season, growers under contract already and nothing very radical could be adopted. Under the circumstances, they said, the best possible course appeared to be the one recommended.

The meeting concluded with Mr. Loyd's statement that he thought much had been aired, that explanations had cleared away many misconceptions, and that such frank discussion would make for a better and more unified feeling amid the growers.

Mr. Loyd acted as chairman throughout, and capably directed discussion that often tended to become diffuse. C. A. Hayden was the secretary.

Lecturer (in village hall):—Now you all know what a molecule is.

Chairman (interrupting):—Most of us do, but perhaps you'd better explain for the benefit of those who have never been up in one. —Royal Arcanum Bulletin.

A celebrated singer was in a motor car accident one day. A paper, after recording the accident, added: "We are happy to state that he was able to appear the following evening in four pieces."

"Has she kept her girlish figure?" "Kept it? Man, she has doubled it!"

BENVOULIN

Messrs. Pete Lufraanco, and Renaldo Bianco killed four rattlesnakes at Rocky Point, two of which were brought home. The largest one measured fifty-two inches.

Mrs. Cook, of Powell River, who was visiting her daughter, Mrs. Max Bernard, left last Friday for Rossland.

Mrs. Leftler has returned to her home in Kelowna after a three-week visit with Mrs. Macfarlane.

Mrs. Dave Culos, who suffered a painful accident by running a needle in her hand, is home from the Hospital.

Mrs. Dennis Gray, also little Marion and Norman, spent a few days in Kelowna with her mother, Mrs. Cummings.

We are glad to hear that Betty Bouvette has returned home from the Preventorium and is looking wonderfully well after three months treatment.

Mrs. W. Peterman and Kay left by C.N.R. on Friday for the Coast. They will return home on Thursday.

Mrs. Jerry Goodkey and Patsy, of Penticton, motored up and spent a few days with her mother, Mrs. Clarence Burch.

Mrs. D. Bonnel left for her home in Kimberley last Friday.

Mr. and Mrs. Hargreaves had as a caller the Chief Boiler Inspector from Alberta.

Mrs. Hedeman, who is resident on the DeMara ranch, returned home from the Hospital last week.

Little Doreen Gordon, of Kelowna, is visiting with her grandmother, Mrs. Alex. Gordon.

Service will be resumed next Sunday, August 16th, in the Benvoulin United Church.

Synopsis of Land Act

PRE-EMPTIONS
VACANT, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation and improvement.

Full information concerning Pre-emption is given in Bulletin No. 1, Land Series. "How to Pre-empt Land" is a booklet which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., Bureau of Provincial Information, Victoria, or any Government Agent.

Records will be granted covering only land suitable for agricultural purposes within reasonable distance of road, school and marketing facilities and which is not timberland, i.e., carrying 5,000 board feet per acre east of the Coast Range and 8,000 feet per acre west of that Range.

Applications for pre-emption forms to be addressed to the Land Commissioner of the Land Recording Division in which the land applied for is situated, on pre-emption forms obtained from the Commissioner.

Pre-emption must be completed for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

Pre-emption carrying part time conditions of occupation are also granted.

PURCHASE OR LEASE
Applications are received for purchase of vacant and unreserved Crown lands not being timberland, for agricultural purposes. Minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land, \$2.50 per acre. Further information is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

As a partial relief measure, reverted lands may be secured by purchase in ten equal instalments, with the first payment suspended for two years. No interest is paid when the land is purchased, and improvements are made during the first two years of not less than 10% of the appraised value.

Mill, factory or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased on conditions including payment of stumpage.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads, conditional upon a dwelling being erected in the first year, title being obtained after residence and improvement conditions are fulfilled and land has been surveyed.

For grazing and industrial purposes areas not exceeding 650 acres may be leased by one person or a company.

Under the Grazing Act the Province is divided into grazing districts and the range administrator, after consulting the range administrator, may issue regulations amended from time to time to meet varying conditions. Annual grazing permits are issued based on certain monthly rates per head of stock. Priority in grazing privileges is given to resident stock-owners. Stock-owners may form associations for range management. Free or partially free permits are available for settlers, campers and travellers, up to ten head.

**MORE PEOPLE RIDE ON
GOODYEAR TIRES THAN ON
ANY OTHER KIND**

DON'T GAMBLE

Get PROOF before you buy tires!

Isn't it foolish to base tire buying on chance or supposition, when definite proofs are available for you?

Goodyear is the only tire which provides these three convincing proofs before you buy—proofs of long tread wear, unique non-skid quality and carcass strength. Come in and see our demonstrations.

Our "Superwist" proof is a tensile strength test in which a Goodyear Superwist cord is stretched along with an ordinary tire cord, to show Superwist's superior stretch and recoil qualities.

Then there is the non-skid test. You actually feel the grip of Goodyear's centre section. All-Weather tread on a smooth, wet surface.

Our "Footprint" proof shows you the imprints taken from tires that have gone long mileages and are still good, safe and sharp-edged. Some of these, you'll see, are from cars owned in your own locality.

KELOWNA SPRINGS SURPRISE WIN AT REGATTA TOURNEY

Defeats Vernon 5-2 In Final Ball Game Between Three Leading Teams In Valley

Kelowna sprang the biggest upset of the season on Thursday last when its ball club stepped out in front and defeated Vernon, considered one of the strongest clubs in the interior, in the final game of the Regatta tournament staged in the City Park.

Vernon's defeat of Penticton 9-4 was rather unexpected as well in the first game of the tournament. Penticton had the edge up to the eighth inning. In that frame Vernon walloped the southerners for four runs and added two more in the ninth to sew up the contest.

Sparrow Lauded For Work

In the final contest, Sparrow, Vernon's port-side heater, went to work once more and pitched another nine innings. He was given a big hand, as pitching eighteen innings in one afternoon is a life-size job for any hurler. He could not keep up the pace, however, and lost to Kelowna 5-2.

Kelowna's squad was strengthened by the addition of Harold Cousins, Beaverdell ace hurler, Christie, at third base and also from the miners, Verne Cousins, of Peachland, and Rudy Kitch, of Rutland.

In the first frame, Martin Leier singled and was scored for the initial run on Fred Moebes' double. Vernon evened the count in the second when Pothecary doubled and came across on Antilla's single.

The sixth was Vernon's downfall as three tallies came across the plate, scored by Newby, Christie and Kielbiski. Vernon added another count in the eighth when Sparrow walked and was advanced around, but Kelowna nullified that score in the ninth when Verne Cousins touched Sparrow for a triple and was scored as Kitch was being put out at first.

Strongest In Interior

These three teams represent the strongest competition in the Okanagan Valley, Penticton having won the Okanagan (Wash.) league, Kelowna leading the South Okanagan league and Vernon on top in the North Okanagan-Main Line loop.

The line-ups for the two games were as follows:
Penticton: Phinney 1b, Hammond rf, Stewart cf, Watkins c, Cousins lf, Benway 3b, Murray ss, Kincaid 2b, Wilson p, Parkins p.

Vernon: Fallow ss, Sparrow p, Ward cf, Scherle 3b, Pothecary 2b, Antilla 1b, Crawford c, McDonald lf, Nyfens rf.

Score by innings:
Runs
Vernon: 0 0 1 0 2 0 4 2-9
Penticton: 1 2 0 0 1 0 0 4-4
Kelowna: M. Leier 2b, Moebes lf, Johnston 1b, Newby cf, Christie 3b, Kielbiski ss, V. Cousins c, Kitch rf, H. Cousins p.

The Vernon line-up was similar to the first game.
Score by innings:
Runs
Kelowna: 1 0 0 0 3 0 0 1-5
Vernon: 0 1 0 0 0 0 1 0-2

TENNIS TEAMS ARE ROUGHLY HANDLED BY SOUTHERNERS

Kelowna Loses To Summerland Players By Twenty-One Matches To Seven

Summerland tennis players, playing at home and on the Kelowna courts, administered a severe drubbing to Kelowna on Sunday by capturing 21 matches to the Orchard City's 7.

On their own board courts, Summerland took all but one match and had an 11 to 1 victory. Kelowna fared better at home but lost out to the visiting Summerland team 10 to 6.

One Ladies Doubles Win
Jocelyn Pease and Hazel Brown were the only winners for Kelowna at Summerland, when they defeated Mrs. Russell and Miss E. Smith in two hard sets 6-4, 6-4.

Summerland players took all four men's doubles matches at Kelowna, but Kelowna triumphed in three out of four ladies' doubles games. Summerland had five victories in the mixed doubles, while Kelowna captured three.

Results of the play were as follows:

Men's Doubles—Rippen and Landy beat T. Stubbs and C. Pease, 6-4, 5-6, 6-5, and beat A. Stubbs and Embry, 6-1, 6-1; Bennest and Malkin beat T. Stubbs and C. Pease, 6-3, 6-3, and beat A. Stubbs and Embry, 6-0, 6-3.

Ladies' Doubles—Mrs. MacDougall and Miss Sherman lost to Misses M. Stiell and E. Frank, 6-2, 6-2, and won from Misses N. Stiell and K. Hill, 6-0, 6-4; Miss Rutherford and Mrs. Cuthbert lost to Misses M. Stiell and E. Frank, 6-1, 6-0, and lost to Misses N. Stiell and K. Hill, 6-5, 3-6, 6-2.

Mixed Doubles—Landy and Miss Sharman beat T. Stubbs and Miss E. Frank, 6-4, 6-2, and beat Embry and Miss M. Stiell, 6-5, 3-6; Rippen and Miss Rutherford lost to T. Stubbs and Miss Frank, 6-4, 6-1, and lost to Embry and Miss M. Stiell, 6-1, 6-4; Malkin and Mrs. Cuthbert beat C. Pease and Miss K. Hill, 6-5, 6-2, and lost to A. Stubbs and Miss M. Stiell, 6-1, 6-5; Bennest and Mrs. MacDougall beat C. Pease and Miss Hill, 6-5, 6-5, and beat A. Stubbs and Miss N. Stiell, 6-1, 6-3.

At Summerland
Men's Doubles—Dodwell and Solly beat McKay and W. Fuller, 5-6, 6-5, 6-0, and beat Woolley and Izowsky, 6-1, 6-3; Russell and MacDougall beat McKay and Fuller, 6-3, 6-4, and beat Woolley and Izowsky, 6-1, 6-2.

Ladies' Doubles—Misses B. Tomlin and E. Bristow beat Misses J. Pease and H. Brown, 6-2, 6-5, and beat Misses Sutton and Allan, 6-0, 6-0; Misses Russell and Miss E. Smith lost to Misses Pease and Brown, 6-4, 6-4, and

Kelowna And District Sports

FIRST GAME OF CHAMPIONSHIP BALL SERIES GOES TO KELOWNA OVER PEACHLAND—DECISIVE SCORE

South Okanagan League Play-Offs Start With Orchard City's Stronger Hitting Power Proving Effective—Second Game At Peachland Next Sunday

Stronger hitting power proved quite effective on Sunday last at the City Park, when Kelowna turned back the Peachland ball nine 7-3 in a free-clouting contest, the first of the play-off series for the South Okanagan championship. The second game will be played at Peachland on Sunday next, and a third, if necessary, at Kelowna on the following week-end.

Kelowna collected 14 hits off Ted Clements and bunched them so effectively in the fourth with five runs that the game was clinched. Peachland collected eight hits off the left-hander Waddell, who fanned 10 opposing batters. Clements whiffed the horseshoe past six Peachland stickers.

Moebes and N. Elkins were the strongest clouters of the game, as most of the hits were scattered throughout the players.

Moebes Starts Scoring

Kelowna scored in the last of the initial frame when Moebes singled, stole second, went to third on Verne Cousins' overthrow, and raced home when Grogan retrieved the ball and threw it over the third baseman's head.

The count was evened in the second when Dan Cousins waved at a third strike, which eluded V. Leier as well, and Cousins was safe at first. He stole second, and was advanced by Grogan's and Currie's singles.

Peachland forged ahead in the fourth by one run. Kelowna had just finished making a nice double play when both M. Leier and Kielbiski made bad miscues and the team wobbled perceptibly. However, the visitors got but one tally.

This aroused the fighting Kelowna spirit to such an extent that the local players pounded Clements for four hits and, aided by two errors, squeezed five men across the plate.

Both teams scored single runs in the seventh and they went down in order in the final two frames.

Cousins In Form

Verne Cousins showed he was in good throwing form to second base and caught two would-be second sackers. Fuls handled six fielding chances without a miscue and Clements five. Martin Leier had plenty of work around second but he messed up two plays. Waddell handled five chances and Kielbiski six with one error.

After considerable argument the two days previous to the game, it was finally decided to import two neutral umpires for the championship series. Consequently, Roland "Buck" Etter, of Penticton, and Tom Watson, of Beaverdell, were brought to town. They handled the game well, and there was not a single squawling throughout the contest, a different story to most Kelowna-Peachland games.

POWERFUL SPRAY SPELLS
DOOM TO CODLING MOTH

WENATCHEE.—A spray so powerful that growers can get control of Codling Moth in the first brood is now available—tried, proven and found successful, insecticide investigators assert. Only four applications, if properly applied, are necessary and it will wash off.

It is lead-arsenate dynamite developed by the Washington State College Experiment Station here. It was tried three and four years ago; it was proven last year, and it has been used on about 500 and 1,000 acres by various growers this year.

THE RIFLE

J. C. Martin Is Spoon Winner At Weekly Shoot

The weather was very pleasant, if somewhat on the warm side, and conditions were fairly good for marksmanship on Sunday, but other attractions proved such a strong lure that only nine riflemen turned out for the weekly practice at the Glenmore range.

The distances fired were 500 and 600 yards. The light was steady at the outset and some fair scores were made at the first distance, three men, H. H. McCall, P. J. Noonan and G. C. Rose, reaching the 30 mark. Mirage gave some trouble at 600 but not so much as on the previous Sunday, and Rose and D. McMillan both put on 30.

J. McMillan, a prize-winning young shot, distinguished himself by running up 26 for six shots, the other being an unlucky miss, as his first effort at 600 yards.

Although a scratch man at 600 yards, J. C. Martin earned the weekly spoon by very steady shooting at both distances.

Aggregate

G. C. Rose, 30, 30—60; J. C. Martin, 29, 29—58; H. H. McCall, 30, 28—58; D. McMillan, 26, 30—56; P. J. Noonan, 30, 24—54; J. McMillan, 25, 26—51; D. E. McLennan, 24, 22—46; H. Parks, 23, 22—45; T. Pearson, 11, 8—19.

Spoon Handicap

G. C. Rose, 30 plus 3, 30 plus 5—68 (ineligible, having won two spoons this season); D. McMillan, 26 plus 5, 30 plus 5—66 (ineligible, having won two spoons this season); J. C. Martin, 29 plus 5, 29 scratch—63 (winner); H. H. McCall, 30 plus 1, 28 plus 3—62 and P. J. Noonan, 30 plus 3, 24 plus 5—62, equal; D. E. McLennan, 24 plus 5, 22 plus 5—56; T. Pearson, 11 plus 5, 8 plus 5—29.

Spoon Shoot Next Sunday

The spoon shoot next Sunday will be held at 200 and 600 yards. It is hoped that there will be a better attendance, as just a month remains to the last shoot of the season, the Gilbey Spey-Royal for the rifle team championship of the interior, and it is essential to get every possible bit of practice, especially at 600 yards, so as to have any chance to cope with the expert riflemen who will be present from Kamloops, Vernon and Summerland to take part in the competition.

VERNON IN LEAD OF NORTHERN LOOP

Doubles Score Over Kamloops 6-3 And Now Has Long Lay-Over

VERNON, AUGUST 13.—Vernon now faces at least a three weeks' lay-off while other teams complete their schedules, and as yet no announcement of playoff dates is possible, states league President E. Dill, of Endersby.

Knowing that a win would mean favoured position over the other three teams, the local boys traveled to Kamloops on Sunday determined to chalk up a victory, which they did to the tune of 6-3.

Left-hander George Sparrow rose to the occasion in his best form and at the end of the nine innings had completed the impressive total of 15 strikeouts, while Kamloops' George Roberts was able to whiff only six. In addition, Sparrow allowed but five scattered hits while he collected double that number from the main liners.

League Standing

Team	W	L	Pct.
Vernon	8	4	.666
Revelstoke	6	5	.545

Salmon Arm	3	7	.333

STRONG VANCOUVER ELEVEN HANDS OUT SEVERE TRIMMING

Kelowna Beaten 197 to 70 By Touring Coast Cricketers On Tuesday Afternoon

Visiting Vancouver cricketers handed Kelowna an artistic trimming on Tuesday afternoon at the City Park when they reared on the long end of the score, 197 runs to 70.

By far the strongest eleven which has visited the Okanagan for many years, this aggregation put on a classy display of cricket which was an interesting one despite the one-sided score.

Play All This Week

The touring cricketers gave Penticton a polished exhibition as well as a severe defeat on Monday, while on Wednesday they played against a Vernon eleven. Today and tomorrow two more Vernon teams will be met, while on Saturday an all star eleven from the Valley will go against the visitors, at Vernon.

T. Reed was the top batsman for Vancouver with half a century, closely followed by B. Robinson with 37 and A. Salt with 35.

D. Verity and Johnson led the Kelowna batsmen with an unlucky 13 runs each while Mathewson piled up 12 before being stumped, and Bredin had 11.

Chief Bowlers For Team
Dale and Comrie were the chief bowlers for the visitors, the former accounted for four wickets, Johnson for Kelowna accounted for five Vancouver wickets, while Mathewson and Mathewson also made a fine showing. Greenland made two fine catches.

Following are the detailed results of the match:

PENTICTON PROTEST IS ALLOWED BUT NO REPLAY ORDERED

Baseball War Amicably Settled To Allow Peachland-Kelowna Finals To Proceed

Before the final play-off between Kelowna and Peachland could get away last Sunday, a protest, submitted by Penticton, had to be fought out.

Penticton had protested a decision by Umpire Etter in the game between its team and Peachland when Penticton was felled 10-1. As the protested decision came in the ninth inning and concerned a run which Peachland scored, it was felt that it had little bearing on the ultimate outcome of the contest.

The protest committee, consisting of Dr. C. D. Newby, of Kelowna, and Dr. A. W. Vanderburg, of Summerland, met at Peachland with other league officials on Friday night. The committee allowed the point of the protest but decided that no replay was necessary as it had not changed the final outcome of the match.

So Sunday's game between Peachland and Kelowna was allowed to proceed as originally intended.

GOLDEN VOICE OF GRACE MOORE RINGS OUT AT EMPRESS

New Musical Romance, "The King Steps Out," To Show Here This Week-End

Once again the golden voice of Grace Moore rings out from the screen, in Columbia's new musical romance "The King Steps Out," which shows at the Empress Theatre on Friday and Saturday, August 14th and 15th. It is the diva's third picture since her return to the screen in the sensational "One Night of Love" in 1934, the other film being "Love Me Forever," which also was well received.

On this occasion Miss Moore has for her leading man Franchot Tone, who has grown in a short time into one of the most popular stars on the screen. Tone is seen in the role of Emperor Francis Josef who woos one daughter of Duke Maximilian—played by Walter Connolly—and finally marries another. The other, one might safely presume, would be the lovely Miss Moore.

"The Thin Man's" wife becomes a G-Man's sweetheart in "Whipsaw," a new Metro-Goldwyn-Mayer feature starring Myrna Loy and Spencer Tracy, and coming on Monday and Tuesday, August 17th and 18th, to the Empress Theatre. It is the first appearance of the stars in the same picture. It presents Miss Loy as a fascinating jewel thief, and Tracy as a secret service man who tries to trap her through romance. The picture was produced by Harry Rapf and directed by Sam Wood. The supporting cast includes Harvey Stephens, William Harrigan, John Qualen, Robert Warwick, Irene Franklin, Lillian Leighton, Wade Boteler and others. Starting in London, the plot moves with lightning rapidity to New York and then through a succession of midwestern cities to a rural Missouri community where it ends in a thunderous climax. It is described as one of the most thrilling pictures of recent years.

Any person who has ever had the desire to "throw things," will envy the opportunity that came to Margaret Sullivan, star of Walter Wanger's production for Paramount, "The Moon's Our Home," coming on Wednesday and Thursday, Aug. 19th and 20th, to the Empress Theatre.

Miss Sullivan plays a temperamental motion picture star whose tempestuous, fiery frenzy causes her completely to wreck a lavish living room in a modernistic Hollywood bungalow apartment.

Harry Sherman, producer of the first Clarence E. Mulford "Hopalong Cassidy" story, a Paramount release featuring William Boyd and Jimmy Ellison, coming as a double feature on Wednesday and Thursday to the Empress Theatre, has the distinction of being the man who brought the Zane Grey westerns to the screen.

The initial Zane Grey film was "Light of the Western Stars." Instantly Zane Grey's name became famous with picture audiences everywhere for his writing of western stories.

NEGLECT OF CONSTIPATION* IS A SERIOUS MATTER

Delicious Cereal Corrects
This Condition in a
Natural Way

Immediate attention to constipation* is important for two reasons. It causes discomfort, and may lead to headaches and loss of appetite. It also tends to slow you down.

When elimination continues to be faulty, over a period of time, your general resistance may be lowered. And a weakened body is less able to fight off the infections that abound in every crowded place.

The most common type of constipation is that caused by insufficient "bulk" in meals. In Kellogg's ALL-BRAN, you have a delicious source of effective "bulk."

Within the body, the "bulk" in ALL-BRAN absorbs moisture, forms a soft mass and gently cleanses the system. This tempting cereal also furnishes vitamin B and contains iron.

Two tablespoons daily are usually sufficient. Serve as a cereal with milk or cream, or cook into tempting muffins, breads, etc. How much pleasanter to enjoy this natural laxative food instead of taking pills and drugs.

ALL-BRAN is guaranteed by the Kellogg Company. Sold by all grocers. Made by Kellogg in London, Ontario.

*Constipation due to insufficient "bulk"

ALBERTA TOURIST PROBLEM SETTLED

Board Of Trade Finds No Cause For Complaint On Licence Question

The question of Alberta tourists being stopped at the Alberta-B.C. boundary and being forced to take out new B.C. car licences has been dropped by the Kelowna Board of Trade, at least for the present.

The end of this controversy was a happy one, as Chambers of Commerce in Calgary and Edmonton failed to substantiate the complaints that Alberta visitors were being unjustly treated, while the Cranbrook Board took the same view.

The Edmonton Chamber stated it had received a number of complaints, but on investigation it found that the parties had started to work in B.C. Calgary informed the Kelowna Board that most of the trouble was with commercial travellers, but there had been no complaints registered for some time back.

Cranbrook Board explained that, if a tourist admits in any way that he intends to settle or work in B.C., then the Provincial Police make him take out a new car licence.

MANAGEMENT OF ANNUAL REGATTA PRAISED FOR EFFICIENT MANNER IN WHICH COMPETITIONS WERE RUN

Vancouver And Interior Business Men And Other
Visitors Join In Expressions Of Praise For
Dick Parkinson And His Helpers

Dick Parkinson, for his efficient management and executive ability in arranging details for the annual Kelowna Regatta, was lauded to the skies by visitors and residents alike at the annual banquet staged by the Regatta Committee at the Royal Anne Hotel on Thursday evening.

Some seventy-five Vancouver business men, Interior visitors, and Regatta officials, besides Kelowna business men, were in attendance at this happy function which winds up the water sports every year.

Mr. Sam Miller, Board of Trade President, was in the chair and officially welcomed the visitors to Kelowna.

Speakers Were Brief

Each speaker was allowed but one minute to express his views on the annual celebration, and many were the expressions of praise given by the visitors.

Mayor O. L. Jones: "I hope you thoroughly enjoyed the Regatta and had a good time."

Mr. W. W. Pettigrew, Aquatic Club President: "I hope you enjoyed yourself well enough to come back next year."

Mr. C. A. Cotterell, Assistant General Manager, Western Lines, C.P.R. who has not missed a Regatta in twenty-five years, and who brought three Vancouver visitors in his special car: "Every one of the Regattas is better than the year previous. They are a credit to your manager. You are doing wonderful work, outside of the competitive angle, in building up youthful bodies."

Mr. Ralph Ison, of the American Can Co. claimed, he doubled every year for C. A. Cotterell.

M. E. Nichols Congratulates

Mr. M. E. Nichols, Managing Director of the Vancouver Province, congratulated the Regatta officials for the fine way in which they carried out the events, and said that there should be a day of thanksgiving for all we have to be thankful for in this province. There is a great reason to be thankful for all the mercies which have been showered upon us."

Mr. E. H. "Grubby" Grubbe, President of the N.P.A.A.O.: "I congratulate you on this first-class show. On arrival here I always have that indescribable feeling that I am among friends. We feel that we are at home. But I do want you in Kelowna to get a crew or crews in competition at the N.P.A.A.O. Regatta."

Mr. Dick Parkinson was greeted with prolonged cheering when he welcomed the visitors to the Regatta. He explained that the Olympics had taken eight to ten of the principal competitors from the Coast who otherwise would have attended. He appreciated the action of the Vancouver Province in sending a reporter, Fred Garvey, to the Regatta, and remarked that Bob Elson, former Province Sports Editor, was a real friend of Kelowna. He concluded with: "Thanks a lot and come again."

Reeve H. B. Morley, Pentiction: "Pentiction and Kelowna are shaking hands every day. Kelowna Regatta Day is a holiday in Pentiction. We congratulate you most heartily on the success of this day."

Dr. J. Allen Harris, M.L.A. for South Okanagan, remarked on the success of the day, and told of an introduction given him across the line when called upon to address a gathering. It was: "Here is a true son of John Bull, peddling his father's goods."

Mr. Kenny McRae, Revelstoke: "I have been here for twenty years. I am sorry that Dick Arlen could not be here, but it was not his fault, as he wanted to be. Dick Arlen told me to bring his regrets."

Fred Garvey, Vancouver Province correspondent: "Your Regattas are so big that I hardly had time to have any fun. I wish you would come down to Vancouver, and show us how to run our Regattas."

Mr. Lucien Roy, Associated Screen Service: "I hope the newspapers will do justice to your Regatta."

Mr. Gordon Vance, Vancouver, Regatta Referee: There is a marvellous improvement shown in our swimmers since the addition of the pool. My advice is, get a coach, and a damn good one, and carry on. The Wenatchee Legion Band put on the finest show I ever saw in my life."

Mr. Nicholson, Wenatchee Band leader: "We are very glad to come up and add something to the success of your Regatta." He explained that he had been born in Cobourg, Ont., and he says "Leftenant," not "Lewtenant."

Band Made Big Hit
Dick Parkinson, in remarking on the success of the band: "They made a wonderful hit with the crowd."

Mr. Frank Hislop, Victoria Swimming Club: "We came, we saw, and we were conquered by the people of Kelowna."

Capt. A. O. Clappitt, Chief Diving Judge: "There was a vast improvement shown in the Regatta and the competitions."

Chuck Redding, Seattle ace diver: "Once in Kelowna they always want to come back."

Dr. Lloyd Day (to Vancouver oarsmen): "We were glad to see you and

GREAT INTEREST IN REGATTA SHOPPING WEEK COMPETITION

Maurice Meikle And Brenda Carruthers Only Ones With Correct Answers Out Of 671 Entries

Two competitors were tied for first place in the Regatta Shopping Week window contest sponsored by the Junior Board of Trade and the Kelowna merchants, which closed at noon on August 6th.

Twenty stores in the contest had one article each foreign to their particular lines. There were 671 entries in this contest, and the competition was keen throughout. Kelowna merchants have expressed their satisfaction with the keen interest taken.

Two with Correct Answers
Brenda Carruthers and Maurice Meikle were the only two out of all the competitors who had correct answers to all twenty articles. They split the total of the first and second prizes of \$10 and \$7.50, and obtained \$8.75 each.

Five entries were tied for second place with only one incorrect answer. They were Douglas Smith, St. Paul Street, Maureen Marshall, Keith Watt, Mrs. D. Sexsmith and Fannie Thompson. They split the third and fourth prizes of \$5 and \$2.50, making awards of \$1.50 each.

Judges of Contest

Judges were Mayor O. L. Jones, and a representative from the Board of Trade, Retail Merchants Association of the Board of Trade and a representative of The Courier.

Each store which affiliated itself with this contest was furnished with Regatta Shopping Week pennants for their windows. The huge crowds which attended the Regatta and were in the city prior to the event took an especial interest in the displays.

EAST KELOWNA

Congratulations to Mr. Pelham and we wish him and his bride the best of luck.

Mrs. H. Harsent returned home on Sunday from Vancouver, where she has been spending a holiday.

Mrs. S. Olson and Mrs. W. McKay have left for Vancouver.

Mrs. Victor Gregory has returned from hospital, and we are glad to hear she is making a speedy recovery.

The Girls Softball Club camp broke up early this week.

The Misses Christine and Joan Turton left for their home in Scarborough, England, on Thursday via C.P.R. They will sail on the "Duchess of Bedford."

Many residents in East Kelowna have received letters from Vimy bearing the stamp especially issued to celebrate the unveiling of the Canadian Memorial. These stamps no doubt will be of great interest and value in years to come.

Mr. and Mrs. Jack Paterson, with Billy and Finella, left Wednesday by car for a trip to Vancouver Island.

Bernard Perry and Ernest Blackburne left from McCulloch for a bicycle trip, travelling over the Carmi road, returning via the International Boundary Line.

Miss Lucy Crafter has left to camp with her sister and Mrs. F. Foot at Ewing's Landing.

BOY AND GIRL GYMNASTS WILL TOUR INTERIOR

Troupe Of Twenty-Four To Appear In Kelowna On Thursday, September 17th.

The proposed tour of interior towns by a troupe of 12 boys and 12 girls displaying gymnastics is to start Monday, September 14. The party will demonstrate the activities of a provincial recreation centre which it is hoped to open in Kelowna this winter. The troupe is under direction of the Provincial Department of Recreational and Physical Education. Dates are as follows:

Monday, September 14, Ashcroft.
Tuesday, September 15, Kamloops.
Wednesday, September 16, Vernon.
Thursday, September 17, Kelowna.
Friday, September 18, Pentiction, evening; West Summerland, afternoon.
Saturday, September 19, Princeton.
Monday, September 21, Seattle.
Tuesday, September 22, Bellingham.

hope you will come back next year."

Mr. D. C. Chapman, Vancouver Jubilee Committee: "It has been a privilege to be associated with you. It was a remarkable eye-opener to me. Thanks for the co-operation and courtesies."

Mr. Stewart Jackson, Pentiction Aquatic Club: "We are having a bit of a struggle to get Pentiction Aquatic Club on its feet, but we are getting there."

Treat To Be Back In Kelowna
"Scotty" Cummings, former Pacific Coast sculling champion: "It is a treat to be back in Kelowna for the Regatta. You have to hand it to the management for running off the events. We are having a World's Fair in San Francisco in 1939, and hope to put on a real Regatta. Do not be surprised if you receive an invitation."

Jimmy Burt, Pentiction: "We hope to build up the Pentiction Regatta to as big a scale as Kelowna's. Wherever we go, whatever we do, let us have a free ferry between Kelowna and Westbank."

Dr. Lloyd Day (to Vancouver oarsmen): "We were glad to see you and

"AND ANOTHER
THING, MATILDA...
my Daddy insists on
real mayonnaise!"

LITTLE Anna May's Daddy can tell in a second the difference between Best Foods and ordinary dressings! The reason is—Best Foods is real mayonnaise. It is so much richer and creamier... and so much more full-bodied!

For, you see, Best Foods is made from the same fine foods

you use yourself! Choice salad oils, freshly-broken eggs, a specially selected vinegar, and imported spices. All double-whipped to velvety smoothness. So, when you select the dressing for your salads, be sure you ask for Best Foods. It's all mayonnaise. Nothing else! And it costs but a trifle per salad.

**BEST FOODS
REAL MAYONNAISE**

MADE IN BRITISH COLUMBIA

Carl Baillie, Trail diver: "I've sure enjoyed myself."

At the conclusion of the meeting thanks were extended to the Kelowna Wineries, Revelstoke and Princeton Breweries for donations. Three cheers were also called for Mr. M. E. Nichols for donation of a cup to the Kelowna Regatta.

Rev. Elies Esho, of Bontan, Iraq, Asia Minor, visited Kelowna on Friday in the course of a tour throughout Canada to raise funds in aid of members of the Greek Orthodox Church who have suffered through Mohammedan persecution. He carries with him credentials from the Bishop of Bontan and from mayors of a number of Western Canadian cities.

OXFORD GROUP PLEA MISUSED BY CROOK DUO

(Continued from page 1)

to leave a watch as security. It was refused.

By this time Provincial Police became interested in the two men's activities and they notified Pentiction to check up on their actions there, as the men had gone south over the Ferry.

Cheque Was Worthless

At Summerland, however, Francis and Hamilton were picked up on a common danger charge and taken to Pentiction. Before reaching that town they had divulged the story that the cheque, which was on the Bank of Montreal at Victoria, was worthless. Brought back to Kelowna, they were each sentenced to three months in Oakalla. Before being taken to the Coast, Vancouver Police notified the Kelowna office that these two offenders were wanted on a charge of stealing the car they were driving, and they are awaiting sentence at Vancouver on this count.

Three Months For Theft

Herbert Earl Searrow, of Kelowna, is to spend the next three months in jail after being found guilty of stealing a quantity of personal belongings and a battery from the auto of George Reith, of Rutland. This theft occurred on August 3rd, and, due to some expert sleuthing on the part of Sgt. A. Macdonald, of the Provincial Police, on Sunday morning, August 9th, the goods were recovered.

Sentence was imposed by Magistrate Burne on Monday, August 10th.

Broke Store Window

At 6.30 o'clock, Thursday evening, August 6th, a car driven by Dan Lewis of Pentiction, glanced off a parked car belonging to Mrs. F. J. Foot, of East Kelowna, and shoved the

car across the sidewalk and into Jerry Hutton's store window, breaking one section of plate glass. The Lewis auto also struck W. Pettigrew's vehicle which was just drawing to a stop at the curb.

The Foot auto was not occupied at the time of the accident.

N. R. Seddon, of Kelowna, was fined \$20 and \$32.25 costs on August 10th, charged with driving to the common danger. It was revealed that he rounded a curve with such speed that Frank Tipney, of Salmon Arm, who was riding on the truck, was thrown off. Tipney suffered from a number of severe cuts and bruises and was taken to the Kelowna Hospital where it is said he is recovering satisfactorily.

Did Not Give Right-Of-Way

For failure to give the right-of-way to an approaching motorcycle at the intersection of Richter and Coronation, Peter Cramer was fined \$2.50 in Police Court on Tuesday, August 11th. In trying to avoid the motorcycle, ridden by Rex Lupton, Cramer hit a fence post.

On a charge of speeding, Lawrence J. Kelly paid a fine of \$10 and costs in Police Court on August 10th.

John Mussatto was charged with assault upon his wife, before Magistrate Burne on August 10th, and paid a fine of \$50 and costs or two months in jail. He paid the fine. The assault was said to have occurred on Friday and Mrs. Mussatto received a black eye.

For operating a motor vehicle without a driver's licence, Hillard Miller paid a fine of \$5 and costs on August 10th.

On August 7th, A. A. McNaughton paid a fine of \$5 and costs for causing a disturbance. On the same charge, John Seely took the option and spent five days in jail.

William Robertson obtained suspended sentence from Magistrate Burne, on August 7th, on a charge under the Liquor Act.

PENTICTON'S BUILDING BOOM

PENTICTON, August 13.—Building permits for July amounted to \$16,000, bringing the total to \$166,823.

LATE SESSION OF DOMINION HOUSE BLAMED FOR DELAY IN START OF B. C. ROAD PROGRAMME

Finish Hard Surfacing North Of Summerland And
Will Start On Peachland Work Right Away—
Nearly \$25,000 Allotted For Construction
Work In This Riding

"We had to wait until the House of Commons prorogued and the votes were passed," explained Dr. J. Allen Harris, M.L.A. for South Okanagan, in discussing the lateness of the road surfacing programme.

After the House had passed an appropriation for this province's use on roads throughout B.C., then contracts had to be drawn up and awarded before the work could start. Hon. Mr. McPherson had his road programme ready in early spring, he explained, but has only now been able to get it under way.

Following a lengthy wire which Dr. Harris dispatched to Hon. F. M. McPherson on Friday, Mr. Beavin, surfacing engineer for the province, visited Kelowna and inspected the Vernon road north of the city, which had been hard surfaced last fall.

Hard Surface Stretch to be Relaid

This stretch, Mr. Beavin, assured Dr. Harris, will be relaid at once, the work to be undertaken under the direction of the local department of Public Works officials.

A four-mile stretch of hard surfacing has now been completed just north of Summerland, while another mile and a half of black top will be laid, starting at the end of this week, through Peachland. This additional work was not planned in the original programme, it is understood.

These pieces of work will complete the hard surfacing programme for the riding this year, but a sum of \$25,000 will be spent in re-locating and reconstructing bad stretches in this section.

Relocate Burch's Corners

One of the most important relocating jobs will be undertaken on the stretch of road known as Burch's Corners, the unsurfaced part of the Kelowna-Vernon highway just north of the city. This route will be changed and the new section will be made ready for proper surfacing next year.

On Trepanier Hill, where the highway dips down to the lakeshore road, one of the worst corners on the entire Okanagan highway system will be eliminated with a change in the direction of the road.

Where the big slide comes down at Summerland, just north of the packing houses, a permanent roadway will be constructed and the sides of the cliff well cribbed to prevent further downfalls of mud.

The General Construction Co., of Vancouver, has obtained the contract for this relocating work.

Get Ready for Hard Surfacing

There are few stretches of road throughout the province which are ready for hard surfacing at the present time. Dr. Harris explained, but after the relocating programme has been concluded this fall, then a large number of highways should be in readiness for a permanent black top next year.

The Federal Government will only grant a vote to the province for new construction, and will not make an appropriation for hard surfacing existing highway systems, the member stated.

Work on the high level bridge about two and a half miles north of Reid's Corner, on the Ellison cut-off road where the highway will go over the railway, has been delayed because of a ruling by the Board of Railway Commissioners.

The original estimate was made on the Public Works design, which had been approved by the Dominion Department of Public Works, but after a start had been made the Railway Commissioners ruled that the bridge should be two feet higher.

This extra elevation will just about double the amount of fill required, and cannot be continued until a further appropriation has been passed in the fall.

Mission Road Needs Rain

Speaking of the Mission road, about which many complaints have been heard, Dr. Harris stated that there is plenty of gravel on this route, and with a good rain and grading, it can be put in first-class shape.

A start will be made immediately, he believed, on the Kelowna-Beaverdell road, which has been in bad shape. A recent appropriation of \$10,000 was made for this section under the allotments for mining roads. The Kelowna Board of Trade had asked that this road be improved or closed to traffic.

The General Construction Co. of Vancouver was awarded the contract to relocate and repair sections of road from Burch's Corner, north of Kelowna, to Summerland, at a figure of \$22,354. The contract from Kamloops to Kelowna was awarded to the W. C. Arnett Co., of Vancouver, at \$35,118.

This money is to come from the \$2,200,000 road allotment of the Dominion Government to B. C.

START CLEARING ON HOPE-PRINCETON

PENTICTON, August 13.—Work will start once again on the Hope-Princeton highway immediately, states Mr. C. H. Tupper, M.L.A. One hundred men will be taken off the relief rolls at Princeton and put to work clearing the right-of-way. Camp #11, at Camble Creek, will be opened again, and it is hoped to clear the entire route through to Hope on the appropriation allotted of \$50,000.

MORE THAN ONE THOUSAND SIGN

(Continued from Page 1)

pers could not find a market for the small sizes on the domestic market and were forced to ship them export.

When to Ship McIntosh

Some Oliver growers claimed that the McIntosh was a fall apple and should be cleaned up in the fall instead of lying over in storage and competing with the late winters.

The Board members explained to the Oliver producers that the same argument might be used with citrus fruit, that because oranges ripened at a certain time they should not be obtainable at all times during the year.

And besides, the McIntosh prices rule the rest of the crop. If an attempt was made to clean up the McIntosh crop in a hurry and the price was knocked away down, how could Winesaps and other late winters be sold for high prices, the Board members asked at Oliver.

Continuing this line of argument further, the Board stated that, even if Winesaps were given a clear field after Christmas, they would be governed in price by the cost of American apples laid into Canada plus duty.

After the Oliver growers were given a thorough understanding of the working of a cartel such as is proposed under the voluntary scheme, the Board asked them to send in their solutions to the problem. If anyone had a better scheme, then the Board wished to hear it, and would give the proposer every opportunity to state his case.

Start Drive for Shippers

Now that more than 1,000 growers have signified their intention of supporting the B.C. Tree Fruits, Ltd., the Board members will start a drive for shippers' signatures on contracts. So far they have contented themselves with merely contact work, Mr. Haskins states, but they will go beyond that now.

The Growers' Committee has circulated those growers who were not signed up by the middle of this week, pointing out that already the Duchess has gone by without regulating and if there is no immediate action, then the Wealthy will also roll to market without orderly marketing control.

The Board quotes returns from a shipper handling a large tonnage of Wealthy and Duchess varieties in the northern part of the Valley, as follows: Duchess, No. 3, Household, 1934, 19c; 1935, 35c; Wealthy, same grade, 1934, 11c; 1935, 35c. And in 1934 there was no control of Duchess or Wealthy while in 1935 there was.

The domestic Fancy Wealthy also brought 20 cents more in 1935 than 1934, the circular states.

Is It Worth One Cent?

"Isn't it worth a cent a box to get 20 cents per box more, or 24c per box more?" queries the circular, which is signed by W. E. Haskins for the Growers' Committee.

In conclusion, Mr. Haskins tells the growers that the decision as to a controlled deal rests entirely with those who have not signed the form.

Table of Comparison

Following is a table of the number of growers signed up and the total number of registered growers in each district:

District	No. of Growers Signed	Reg. Growers in District
Armstrong	8	26
Coldstream	30	61
East Kelowna	43	72
Ellison	16	23
Glenmore	45	87
Kaleden	25	37

Kelowna and Okanagan Mission	35	57
Keremeos	45	85
Nakamata	77	95
Oliver	70	121
Okanagan	19	35
Oyama	40	82
Peachland	18	43
Pentiction	152	201
Rutland	48	104
Salmon Arm	48	125
Sorrento	15	23
Summerland	106	258
Vernon	42	88
Westbank	26	40
Winfield and Okanagan Centre	51	68
	1,039	1,736

Tough On Daddy

Betty: "Heaven sends us our daily bread, doesn't He, mummy?"
Mother: "Yes, dear."
"And Santa Claus brings the presents?"
Mother: "Yes, dear."
"And the stock brings the babies?"
"Yes, dear."
"Then what's the use of having daddy around?"

WELL-KNOWN COACH WOULD COME HERE

"Rosie" Helmer, Coach of New York Americans, Enthusiastic Over Kelowna Possibilities

"I like it so well here that I'm looking for a place to locate," was "Rosie" Helmer's answer to queries showered on him this week as to how he liked Kelowna and the Okanagan. Mr. Helmer hails from Calgary, Alta., but he is better known as coach of the New York Americans of hockey fame.

Mr. Helmer is a guest of Mr. Joe Spurrier and has been enjoying many fishing trips for the past week.

Another traveller, Mr. Frank Blunt, who drove with his family from New Mexico to take in the fishing at Beaver Lake, was so enthusiastic over the sport that he states he will surely be back.

There were a large number of Americans at Beaver Lake over the weekend, showing that the popularity of this now famous fishing resort is fast spreading throughout the Pacific Northwest and even beyond.

Among those noticed at Beaver were Norman A. Smith, San Pedro, Cal.; Homer H. Davis, Okanagan; C. E. Brodeur and wife, Mr. and Mrs. Les Kirby, and Charlie Dougherty, California; Mr. and Mrs. Randall, Tacoma; Josiah J. Osborn, Cashmere; Don MacDonald, Auburn; Gale C. Ayers, Dayton, Wash.; Roy Clinton, Daisy, Wash.; Owen C. Evans and family, San Francisco; Henry D. Semmens, Seattle.
